## ASSEMBLY HEARS FEATURE ADDRESS

### Strong Discourse on Mission of Presbyterian Church by Dr. Smith.

### MATTERS OF IMPORTANCE UP

Committee on Divorce and Re-Marriage Will Not Make Report—Dr. Rice of Richmond Makes Address—Features.

Louisville, Ky., May 19.—Tonight's session of the General Assembly of the Presbyterian Church in the United States (Southern) was devoted to the address of the Rev. E. W. Smith, D. D., pastor of the Second Presbyterian Church, of Louisville, on "The Mission of the Presbyterian Church in the United States."

The morning session was marked by the reception of communications and overtures from individuals and Presbyteries and the address of Rev. T. H. Rice, D. D., of Richmond, Va., who spoke in the place of Rev. W. W. Moore, D. D., president of the Union Theological Seminary of Richmond, who was prevented by illness from speaking.

The Rev. W. E. Boggs, D. D., of Atlanta, chairman of the Committee on Divorce and Re-marriage, today announced that the committee would have no report to make and the General Assembly will be asked to provide funds so the committee can further consider the question.

Of the subjects treated in overtures, those which excited most interest are those touching the "elect infant" clause amendment and the "Sinnott Complaint," or "North Alabama case."

On the former overtures were received from the Presbyteries of Norfolk, and other cities, all of which were referred to the standing committee on bills and overtures.

Overtures were received regarding the "Sinnott complaint" from the Presbyteries of Savannah, Houston, Transylvania, Lexington, Asheville, King's Mountain and all were referred to the judicial committee.

The closing address celebrating the semi-centennial was made by Dr. Smith and was as follows:

**The Mission of the Church.**

"A man may attend prayer meeting every week, but if he has no sense of civic obligation, no zeal for social and public righteousness, he is not a good man," declared Rev. Egbert W. Smith, of Louisville, tonight in addressing the Assembly on "The Mission of the Southern Presbyterian Church."

"He may attend church twice every Sunday, but if he lacks the loving heart that makes him the natural protector of the weak, the poor, the defenseless, against injustice and oppression; he is not a good man. He may teach in the Sunday School and be a paragon of household virtue, but if he is at peace with the enemies of Christ's Kingdom, living contentedly amid flagrant social and industrial abuses and public corruptions; he is not a good man. An the church cannot afford to look on or label him as such. So doing she degrades her standard, abdicates her moral primacy, alienates her natural following, and hides that light which Christ gave her to be the light of the world under a domestic and ecclesiastical bushel."

Rev. Mr. Smith pointed out that the sole aim of Christianity was to make good men. "If, therefore, the organized church does not know what a good man is, her equipment is sadly defective. For this age of ours is studying goodness, and is asking what any so-called goodness is good for. It is the most philanthropic and reforming age the world has ever seen. Our whole country is throbbing with moral heat, and the old Puritan conscience, reawakened, is summoning our entire civilization to account."

He said that in this great ethical revival the church has not been a conspicuous leader, and has thereby lost touch and influence with many of the noblest spirits of our time. "The church has been crippled," he continued, "by a narrow and antiquated conception of what constitutes Christian goodness. The typical goodness of the church has been too individualistic; too negative, passive, private, timid, ecclesiastical. The real Christian saint is not a statue of propriety, but a soldier of the common good. The Christian sphere, is not the domestic and private relations, but the whole world of human life, commercial, civil, social political. The Christian goal is not the perfect running of ecclesiastical machinery, but the perfect coming of God's Kingdom of righteousness, truth and love among men."

Discussing the mission of the church, the speaker said: "Born amid the ravages of war, reared amid the wreckage of material fortunes, our church has thus far had for its chief mission to minister to a people under the harsh but wholesome discipline of adversity. But the temptations of adversity are as nothing to those of prosperity. When our Lord would warn us of the most common and conquering of all temptations, when He would make known to us the one supreme rival of God in the hearts of men, He said 'Ye cannot serve God and mammon.' The deadly reality of this rivalry men themselves admit.

## IMPORTANT WEEK FOR COTTON

Prices Have Advanced on Reports of Drought and Effect of Oil Trust Decision—Bulls Optimistic—Market Activity.

New York, May 19.—Cotton has advanced under the spur of strong spot markets, the steadily increasing strength of the statistics position, dry weather in half a dozen States, actual drought in parts of Oklahoma, an Tennessee, and finally the effect of the Standard Oil decision as seen on an active stock market and evidences that the business men of the country feel that an incubus has been received from American trade and that the pilots of commerce have something like a trustworthy chart to steer by.

Moreover the recent purchases of half a million pieces of printcloth has been succeeded by a better tone in the cotton goods trade. Some advances in prices for goods are reported and where they have not actually advanced they are more steady. Yarns are noticeably firmer. Cotton bulls think the worst has been seen in this country and that from now on general trade will improve refardless of tariff legislation this year or the presidential election of 1912. They think that the discounts on the new crop months of 2 1-2 to 2 7-8 cents are premature, that they take too much for granted.

Leading bulls have been persistent sellers of the old crop months for several weeks past. The price of 16 cents makes many old-timers timid. They seriously doubt whether it can be maintained. They think the crop is doing very well and that unless it meets with a serious set back of which they maintain there are no present sign it will far exceed in size anything ever before seen.

Liverpool spot sales are very small. Curtailment of production is persistent. Dry goods as a rule despite some improvement, are still quiet. Believers on the bear side think that cotton history as shown in the sequel to the Sully deal is destined to repeat itself in a big fall of prices should the crop turn out to be big. A reaction on most months came today owing to rains at the south, predictions of more, and considerable "long" liquidation. Besides a reaction, temporary or otherwise, was considered due after the recent marked advance. May and July were the strongest options, July touching 16.13, a new high record.

### GRIMES TRACT BOUGHT.

Site for New Administration Building at Raleigh—Architects.

(Special Star Telegram.)

Raleigh, N. C., May 19.—The State Building Commission today purchased the Grimes property fronting 210 feet on Capital Square and 67 feet each on Fayetteville and Salisbury streets, as a site for the $250,000 State Administration building, paying $45,000 for it to the Grimes estate corporation. It was first offered two weeks ago for $50,000.

An old building on the corner of this lot is now occupied by the State Department of Insurance. It is three stories and was first the old bank of Newbern building and was in 1834 sold to Dr. J. F. Haywood, the elder, for a residence and passed into the hands of Grimes in 1883. It has been the Y. M. C. A. and home for the Capital Club within the past few decades, and has been leased by the State for six or eight years for the Department of Insurance.

The Building Commission conferred tonight with a number of architects explaining what is intended to be housed in the building. It is known it is planned to have the State Library on the first floor, hall of history and State Historical Commission on the second, probably the State Department of insurance on the third, and the Supreme Court and Supreme Court Library on the fifth. It is to be a five-story structure, equipped amply with elevators. As little time as possible is to be lost in getting at actual work of construction. Bonds will be sold July 1st, but in the meantime the State Treasurer is borrowing any money needed for the preliminary work.

All members of committee, except Gen. Carr, were here for the meeting, Gen. Carr attending the reunion of Confederate Veterans at Little Rock. Commissioners here are Chairman Ashley Horne, Clayton; Secretary William E. Springer, Wilmington; J. A. Long, Roxboro; W. L. Parsons, Rockingham; J. Elwood Cox, High Point; and A. S. Rascoe, Bertie county.

The Commissioners agreed tonight that of the five stories, that the building shall be, the first floor shall be for the State Library, the second floor for the Hall of History, and State Historical Commission, the third floor for the State Department of Education and the State Department of Insurance, the fourth for the offices of the judges of the Supreme Court, the Attorney General and the Supreme Court library, with the Supreme Court room and additional rooms for the library on the top floor.

The architects who enter the contest for the contract for plans and supervision have had this general outline of what is wanted laid before them tonight and each architect is being given a separate audience for this purpose with the Commissioners. They will be in session tomorrow.

You can find a cool place and see three fine pictures at The Grand Theatre today. **

## MADERO TO AWAIT A NEW PRESIDENT

### Peace Will Not be Declared Until DeLaBarra is Nation's Leader.

### MEXICO SITUATION REVIEWED

One of Prominent Insurrecto Leaders Gives Status of Affairs—A Plan to Stop Further Rebel Activities.

Juarez, Mexico, May 19.—Peace will not be declared as in effect in Mexico, nor will the general armistice be terminated till Senor Francisco Leon de LaBarra becomes provisional president in succession to President Diaz, according to a statement made tonight by an insurrecto leader. He added that Francisco I. Madero, Jr., would not go to Mexico City until Senor de LaBarra was installed in power. He then might go to the capital to assist in tranquilizing the country.

If the rebels in lower California or other bands hitherto fighting independently, do not lay down their arms, Madero's insurrecto army will be turned loose on them, this man said.

No peace agreement will be signed, according to this authority, but the interim between now and the time Senor de LaBarra becomes president will be utilized in getting the Mexican Congress to enact laws covering most of the points which it had been thought should be contained in a peace agreement. This explanation by one of the most prominent insurrecto leaders to indicate to the public the status of the peace negotiations to date.

"When all these things are done, then alone can we proclaim peace," said a rebel leader. "Of course peace is assured. It is a matter of method only."

The naming of a new cabinet, which is to surround provisional President de LaBarra, was the chief work of the day among rebel leaders. The new Mexican cabinet, according to the best information, probably will be as follows:

Minister of Justice—Vasquez Tagle.
War—General Mascona.
Colonization and Industry—Manuel Calero.
Public Utilities—Manuel Bonilla.
Public Instruction—Dr. Francisco Vasquez Gomez.
Interior Administration — Emilio Vasquez Gomez.
Finance—Ernesto Madero.
Foreign Relations—Salado Alvarez.

As the rebel leader has decided not to go to Mexico City until Senor de LaBarra shall become provisional president, the original plan of having him arrange peace terms in Mexico City has been set aside.

Peace terms will be arranged by telegraphic understandings and by observation, the latter constituting the scrutiny which the rebels will place on acts of Congress and the State Legislatures between now and the end of the month.

The Mexican Congress is scheduled to adjourn by the end of the month. It is a safe prediction therefore that ten days either will see tranquility in Mexico or a continuation of the war.

"If by any unfortunate occurrence my life should be taken, anarchy would follow in Mexico. I cannot for a moment take such a report seriously. My plans will not be changed."

This was the way Francisco I. Madero, Jr., dismissed today a report from Mexico City that rumors were in circulation there that an attempt would be made on his life when he arrived at the capital and urging that precaution be taken.

### FATAL FIRE AT OXFORD.

Miller Perished in Destruction of Five Story Mill Yesterday.

Oxford, N. C., May 19.—The five-story mill and adjoining storehouse of W. G. Kimball, eight miles from here, was destroyed by fire during last night and the miller, L. T. Kelly, perished in the flames. Kimball and his three daughters, all of whom slept above the store, barely escaped with their lives by leaping from the windows and were more or less seriously injured. One of them sustained injuries which will cripple her for life. Kelley leaves a widow and child. The fire, which was of unknown origin, started in the storehouse and quickly communicated to the mill, destroying both. The loss is $40,000.

### AVIATION AT YALE.

McCurdy and Beachy Are Demonstrating Some Things.

New Haven, Conn., May 19.—Aviation today was added to the many things which Yale men study outside their class rooms, for at Yale field this afternoon J. A. D. McCurdy and Lincoln Beachy expect to make flights as the chief attractions of the first meet of the Yale Aero Club.

## MILLIONS LOST ON IMPORTS

Dutiable Creosote Admitted Free at New Orleans and Other Ports. Charges Before Committee of Congress.

Washington, May 19.—Creosote importations and alleged irregularities concerning them through which the government is said to have lost millions in revenues, were considered today by the House Committee on Expenditures in the Treasury Department.

Stimulated by published charges that creosote, dutiable under the Payne-Aldrich tariff law at 20 per cent. ad alorem, was being admitted at New Orleans and other Southern ports as creosote oil, free of duty, the committee summoned Allan B. Benson, who wrote the article which made the charges.

Mr. Benson told the committee that in the Summer of 1909, J. E. B. Stuart, the collector of the port at Newport News, found at that port the British steamer Balkani loaded with 2,000 tons of creosote, which he believed dutiable at 20 per cent. ad valorem. The captain told him he had been bringing it in free for years, and that it was not dutiable. The cargo was billed for New Orleans, and Stuart required the captain to give a bond that he would not attempt to smuggle it into this country, before he permitted the vessel to proceed. At New Orleans the cargo was admitted free as crosote oil.

Benson said Stuart called the attention of the Treasury Department to the matter in the Spring of 1910 when the Balkani again appeared with larger cargo of creosote for Mobile and New Orleans and that Assistant Secretary of the Treasury A. Piatt Andrew in September, 1910, issued an order to the collectors of customs to collect 20 per cent. duty on creosote containing chlorine gas, such as the cargoes coming into New Orleans were alleged to be. In November, 1910, Benson told the committee that as the Secretary of the Treasury, James F. Curtis, in charge of customs, who was ill when the Andrew order was issued, gave an order directing that creosote oil containing traces of chlorine gas should be admitted free, the order operating to admit free of duty cargoes such as the Balkani had often unloaded at New Orleans.

Benson also told the committee that just before the last order was issued Collector Stuart was removed from office. Members of the committee have been informed that millions of dollars worth of creosote are being imported constantly upon which 20 per cent. duty should be collected, and it is further charged that most of this commodity, which is used by the railroads, is brought to Southern ports, whereas it formerly was shipped to New York, where now the duty of 20 per cent. is demanded.

"The committee is going to inquire further into this business," said Representative Cox, of Indiana, chairman of the committee, today. "It will meet again Monday and former Collector Stuart will be asked to tell what he knows of the matter."

### A. & M. STUDENTS EXPELLED.

Four Who Threatened to Hang Freshman for Alleged Theft.

Raleigh, N. C., May 19.—Thursday morning about 2 o'clock five students of the Agricultural and Mechanical College here went to the room of a freshman, who, they claimed, had stolen their property, took him out near the railroad track back of the college, tied a rope to a tree, and threatened to hang him if he did not confess. The freshman broke away, went to the college and gave the alarm. The commandant, with the aid of the seniors and other students, inspected the dormitories and found four students missing. After an investigation four students, all freshmen except one, were expelled from the institution. Among the number was the student who was threatened. As this was a case of freshman against freshman, the act was not regarded as hazing, but as a case of where the students who claimed to have had property stolen from them tried to take the law into their own hands. There has been no hazing at the college in three years.

## IN OKLAHOMA CITY BAPTISTS IN 1912

### Place of Meeting Selected at Jacksonville, Florida Yesterday.

### SECULAR AFFAIRS DISCUSSED

Resolution to Approve President's Plan for Arbitration With Britain—"Origin and Effect of Hookworm."

Jacksonville, Fla., May 19.—Oklahoma City was agreed upon this morning by the committee on place of meeting of the Southern Baptist Convention as next year's meeting place. The convention as a whole is expected to act favorably on the recommendation.

The introduction of resolutions dealing with matters outside the Church precipitated a lively discussion. A resolution fostered by Captain J. G. McCall, of Quitman, Ga., gave strong endorsement to President Taft's proposed arbitration pact with Great Britain and France and asked that it be extended to Germany and Italy. This was adopted by the convention.

Judge George Hillyer, of Atlanta, then offered a resolution calling upon the body to express its displeasure at what he called the prevalence of crime in the country and asked the press and the pulpit to remedy this condition.

**Objects to Secular Activity.**

Before this could be put to a vote Dr. Lansing Burrows, of Americus, Ga., one of the convention's secretaries, objected to further secular activity. "This," he said, "is a religious convention and it should not give its time to consideration of political matter. The doors were opened last year when a resolution on the cure of tuberculosis was considered and if this thing is kept up it will not be long before a committee will be appointed to examine into the origin, effect and cure of the hookworm."

Further consideration of the resolution was interrupted by a special order and it was tabled as unfinished business. The rest of the morning was taken up with foreign mission matters.

A resolution was adopted today looking to the suppression of lawlessness and murder and for the promotion of civic righteousness throughout the South.

The Woman's Missionary Union created the office of college secretary and elected Miss Sue B. Tyler of Baltimore, for the position. The old officers were reelected.

The Southern Baptist Education Association today discussed the attitude of denominational college men to the educational system of the State. A. E. Brown and R. T. Vann, of North Carolina; S. W. Jameson, Georgia, and K. M. Carroll, Texas, being the principal speakers. The trend of argument was that the States, in their endeavor to monopolize all education were trying to put an end to Christian education. A committee was appointed to prepare an article, explaining the relations of church and State education.

### COOLER WEATHER ON THE WAY.

Promise of Washington Observer—Fearfully Hot for May Day.

Washington, D. C., May 19.—Cooler weather not later than Sunday in all sections affected by the hot wave was promised tonight by the weather bureau to the people, who sweltered today under sun rays that drove the mercury to record-breaking notches. Already the break in the wave has begun in the upper Mississippi valley, and on the New England coast, and thunder showers tomorrow and Sunday are expected to bring about a general and decided drop in temperature throughout the East, South and the Great Lake regions.

Abilene, Texas, was the hottest place in the United States today, official thermometers registering 98 degrees. Washington was a close second, with 96 degrees, shown by the weather bureau's thermometer, and street thermometers marking 102 in the shade. These are the highest temperatures ever recorded here in May. There were several prostrations here during the day.

With midsummer weather prevailing in the East and South, Yellowstone Park, Colorado, and probably Wyoming and Nevada, had heavy snowfalls, with temperatures ranging around 26 degrees.

Richmond, Va., May 19.—The temperature was the fraction of a degree lower here than yesterday, registering not quite 95, but two prostrations have been reported, one, that of a negro boy in a factory, proving fatal.

## COTTON MEN ELECT OFFICERS

South Carolinian Lands Presidency and W. A. Erwin, of Durham, is Vice-President—Adopted a Series of Resolutions.

Richmond, Va., May 19.—The American Cotton Manufacturers' Association ended its convention here today after electing Ellyson A. Smyth, of Greenville, S. C., president of the Association and W. A. Erwin, of Durham, N. C., vice-president; re-electing C. B. Bryant, of Charlotte, N. C., secretary and treasurer; adopting a series of resolutions, and hearing read a number of papers of technical rather than general interest.

New members elected to the board of governor for a term of three years are:

John A. Law, Spartanburg, S. C.; William E. Hooper, Baltimore; S. W. Cramer, Charlotte, N. C., and T. L. Wainwright, of Stonewall, Miss.

Immediately after the final adjournment of the convention, the board of governors held a brief session and re-organized, electing Charles D. Tuller, of Atlanta, chairman for the ensuing year.

The selection for the next place of meeting was left in the hands of the board of governors, Richmond being the only city as yet in the field, the Chamber of Commerce here having extended an invitation to the Association to make this its permanent annual meeting place, a plan favored by many of the members because of Richmond's central location and the absence here of bias.

The convention elected Sir Charles W. Macara, Baronet, president of the International Federation of Master Cotton Spinners and Manufacturers' Associations to honorary membership, and resolved that a standing committee of not less than fifteen be appointed by the president to be known as the Committee on Tariff and other legislation whose duty it shall be to act for and represent the Association and co-operate with committees from other similar organizations in all matters of legislation.

### STATE NATIONAL GUARD.

Coast Artillery Reserves at Caswell. Another Rifle Practice.

(Special Star Correspondence.)

Raleigh, N. C., May 19.—Announcement is made by Gen. Leinster, of the North Carolina National Guard, that the War Department has approved plans for holding a camp of instruction for officers of the coast artillery at Fort Caswell June 18th to 18th. There are 20 officers of the Coast Artillery who will be expected to participate in this encampment where they will be instructed by regular army officers.

General Order No. 6, just issued by Adjutant General R. L. Leinster, of the North Carolina National Guard, directs the holding of a rifle practice and competitive shoot on the range here June 5th to 7th, by the three teams that made the highest scores in the three regimental competitive shoots recently held at Raleigh, Goldsboro and Gastonia. They are Company K, First Infantry, Asheville; Company L, Second Infantry, Lumber Bridge, and Company B. Third Infantry, Raleigh. The order details the regulations for the shoot. The expenses and the pay of the men are to be provided by the government. There will be still further competitive rifle range practice at Camp Glenn, Morehead, during the regimental encampments later in the Summer. Then in August there will be the selection of the North Carolina team to represent the North Carolina National Guard in the competitive rifle practice at Camp Perry under the direction of the War Department and including teams from all the National Guard.

### "MOONSHINERS" IN THE ACT.

Caught by Officers in Union County While at Work.

(Special Star Correspondence.)

Monroe, N. C., May 19.—J. M. Huneycutt and Conley J. Tucker, illicit distillers, were captured at their still this morning shortly before daylight by Deputy Sheriff Griffith and Constable Fowler. The still was in full blast, and the officers lay in the bushes and watched Huneycutt and Conley make 18 gallons of corn whiskey before they nabbed them. The still was located near a spring in a brier patch in an old field, on land belonging to Cathey Brothers, of Charlotte. The officers say that the glow of the fire was plainly visible all around, and that the men could be heard talking and laughing several hundred yards away. The place at which the catch was made is in New Salem township, Union county, about to miles south of Rocky River and 18 miles from Monroe.

The two defendants are now lodged in Union county jail, and will be tried before the Recorder tomorrow on the charges of keeping whiskey for unlawful sale and illegal distilling. After their cases have been disposed of by the authorities here, the men will be turned over to the Unitd States Revenue officials.

Huneycutt and Tucker are both white men and are said to be from Stanly county.

## FIGHT HAS BEGUN ON LUMBER TRUST

### Government Brings Sherman Suit Against Alleged Unlawful Combine.

### UNDER THE RECENT DECISION

Department of Justice Regards It As Most Important Suit Ever Undertaken—Concerns Named in the Action.

New York, May 19.—In the first Federal anti-trust proceedings brought under the Sherman law, as interpreted by the Standard Oil decision, the Department of Justice filed suit in the United States Court here today against various constituent organizations of what is popularly known as the "lumber trust," alleging the existence of a widespread conspiracy unreasonably to "restrain the lumber trade in this country."

It is said that the suit may be the first of a series planned by Attorney General Wickershaw looking to the breaking up of alleged agreements among the retailers of many of the commodities of life to maintain high prices; to force all ultimate consumers to buy from retailers and to blacklist wholesalers who sell to others non-members of retail organizations in the various States and cities.

Ten trade organizations and more than 150 individuals are named as defendants in today's suit. It alleges violation of the Sherman anti-trust law and seeks injunction restraining the defendants from continuing the conspiracy charged.

The elaborate system of blacklisting attributed to the alleged conspirators, copies of circulars sent out by the various organizations classifying consumers as "proper" and "improper" trade, extracts from reports threatening "short shift" to dealers, daring to violate the rules of the organizations and branding such offenders as "poachers," "scalpers," "mavericks," and "illegitimates," are fully set forth in the government's petition.

It is alleged that not only have private consumers been blacklisted, but that many of the great industrial concerns of the country have been put under the ban by the lumber dealers. The government's bill is replete with sensational allegations and interesting exhibits.

The suit is directed specifically against the retail organizations in the Eastern States, but the trial unquestionably will embrace methods adopted by retailers and wholesalers throughout the United States. In general the case is regarded as Attorney General Wickersham's long planned test suit to have the courts determine how far combinations of retailers may go to prevent the ultimate consumer from dealing directly with the wholesaler or producer.

The government takes the position that any agreement of acts which prevents a consumer from buying where he chooses or to his best advantage are in "unreasonable" restraint of trade and violate the Sherman law. No attack on the middle man as such is intended, the Department of Justice holding that there is legitimate business opportunity for him.

It is known that while the Department has been making a national-wide investigation of the question as it relates to lumber, its agents have reported that the case is nearly paralleled in the marketing of many other commodities in daily use. If the government's contention in this case was sustained there is promise of a sweeping attack upon similar alleged conspirators. The Department of Justice regards the case as the most important in principal of all the anti-trust suits undertaken. Attorney General Wickersham personally directed the gathering of the evidence, which has occupied more than a year. His special assistant, Clarke McKercher, who has been in active charge of the preparation of the case, filed the bill today which was also signed by Henry A. Wise, United States District Attorney at New York; James A. Fowler, assistant to the Attorney General, and Felix Frankfurter, Assistant United States Attorney.

The principal defendants in the suit are:

The Eastern States Retail Lumber Dealers Association, a New York corporation, the central body of the nine other defendant organizations.

The New York Lumber Trade Association of New York City.

The Building Material Mens' Association, of West Chester County, New York.

The Lumber Dealers' Association, of Connecticut.

The Massachusetts Retail Lumber Dealers' Association.

The Lumber Dealers' Association, of Rhode Island.

The Retail Lumber Dealers' Association, of Baltimore.

The officers and directors, trustees and members of the above are named as individual defendants as well as the officers and directors and members of the three following voluntary organizations:

Detroit, May 19.—Luck broke badly for Philadelphia today and Detroit was a slugging match 9 to 8. Stanage's home run in the eighth won the game. Lively was hit on the head by a pitched ball in the second inning and was forced to retire after pitching the third inning. Coombs, prostrated by the heat in the first, was relieved by Russell, who allowed seven hits.

## CITY LEAGUE BASEBALL.

**Another Double Header At League Park This Afternoon.**

For the third day's battle in the City Baseball League the W. L. I. and the Boys' Brigade will cross bats at 3 o'clock this afternoon and at 5 o'clock the Y. M. C. A. and the A. C. L. teams will produce the goods in the usual style. The boys are getting into form and every Saturday is expected to demonstrate some classier playing than before, as even in professional ball is the case. For the Boys' Brigade, Barnes will be put in to do the flinging honors and will be opposed by Parker of the W. L. I., while for the Y. M. C. A., Taylor will be opposed by the premier pitcher, "Pomp" Green, of the Coast Line Kids. A large crowd should witness the game as it is well worth the quarter, and then the boys need encouragement too. The line-ups today will be as follows:

| Boys' Brigade | W. L. I. |
|---|---|
| Thompson | c. Wright. |
| Barnes | p. Parker. |

## WOULD SPEED UP SENATE.

**Democrats Will Endeavor to Enforce Aid of the Progressives.**

Washington, May 19.—Determined to speed up the Senate in the consideration of several measures now pending, the Democratic Steering Committee today adopted a programme that the minority will endeavor to enforce, with the aid of the progressive Republicans.

The programme includes immediate consideration of the resolution providing for the appointment of a special committee to investigate the right of Senator Lorimer to his seat, the joint resolution providing for the direct election of Senators and the bill re-apportioning the representation of the States in the House of Representatives.

Senator Martin, chairman of the Committee, has openly criticised the Republican committees for failure to act on measures before them. He also has protested against the practice of adjourning from Thursday to Monday, and from Monday to Thursday again, which has marked the progress of the extra session in the Senate.

The Democrats hope to recruit aid enough from the ranks of the progressive Republicans to carry out their plan. They feel certain of sufficient assistance to insure immediate consideration of the Lorimer and direct vote of senators' resolutions, and through arrangement it is thought certain the reapportionment measure can be forced into the open.

Senator Martin issued a call for another meeting of the committee Monday. Final plans then will be considered.

## PERFECT RECORDS MADE.

**Close of Firemen's Tournament at Charlotte Yesterday—Events.**

(Special Star Telegram.)

Charlotte, N. C., May 19.—A new record for perfect scores was established, it is believed, by the final contest of the firemen's tournament in Charlotte this week in connection with the 24th annual convention of the State Firemen's Association.

The record was created Friday morning in the horse hose wagon contest when every one of the 13 entries made perfect scores, none of them being "naughted" in the races. Every coupling and every division of the races was perfect. So far as is known no such score has ever been made in an interstate tournament, and the result has created immense satisfaction among the firemen, both visiting and local.

The official record of the runs made as seen on the official blackboard of the interstate event closing the week's programme today and which, because it is a perfect record, with no blow offs or accidents, has been photographed, and will be widely distributed, appears as follows: Newbern, No. 1, 26 2-5; Atlantic Newbern, 30 3-5; Hickory 33 2-5; Sanford, 30 3-5; Asheville, No. 2, 31 3-5; Kinston, 27 4-5; High Point, 31; Statesville 31 3-5; Rescue, No. 1, Raleigh 31; Concord, 30 3-5; Asheville, No. 1, 31 3-5; Salisbury, 31 1-5; Capital Hose, Raleigh, 28 1-5.

## SUNDAY SCHOOL LEAGUE.

**Boys' Brigade and St. James' Teams Played Yesterday Afternoon.**

The Boys' Brigade and St. James' teams in the City Sunday School League played a very interesting game yesterday afternoon at 17th and Princess streets, the score being 14 to 6 in favor of St. James'. The Brigade started the scoring with a run in the first inning, added two more in the third and three in the eighth, but in the meantime St. James' had been busy, scoring two in the first, one each in the third, fifth and seventh with six in the sixth and three more in the eighth. Burnett and Dickson composed the battery for the Brigade, while Myers and Strange did the honors for St. James'. Burnett struck out 3, Myers 5. Burnett gave six bases on ball, Myers 2.

## DUN'S REVIEW OF TRADE.

**Events Bearing on Trade Situation—Improvement Noted.**

New York, May 19.—R. G. Dun & Company's weekly Review of Trade tomorrow will say:

Two events of the week have had an important bearing on the business situation inasmuch as they remove much of the uncertainty which has served to retard enterprise and discourage activity. These events are the Supreme Court decision in the Standard Oil case, and the prospects of the restoration of peace in Mexico. For the first time in many weeks the reports from the leading trade centers are more buoyant in tone, though it would not appear that the actual gain in volume of transactions has been much if any. This improvement in business sentiment appears in the reports from the iron and steel trade where in spite of continued contraction and price concessions in pig iron a better feeling is noted with some increased orders from the railroads. It also appears to a limited degree in the textile markets which report some improvement notwithstanding the continued curtailment due largely to the high cost of production and the conservative purchases by consumers. The export movement of cotton goods continues well ahead of last year and more active buying of printed fabrics has followed the large purchases of printcloths a week ago.

A better feeling pervades the entire footwear situation. Shoe manufacturers are placing larger contracts for leather which would indicate that reserve contracts in hand have increased. The movement, however, is principally for tan shoes and specialties. Larger individual lots of leather are moved and prices show a firmer trend on some varieties, owing to scant supplies.

## INSURANCE AFFAIRS.

**Commissioner Back From Charlotte—Law as to Escapes.**

(Special Star Correspondence.)

Raleigh, N. C., May 19.—Commissioner of Insurance Young is just back from Charlotte where he attended the State Firemen's Convention, which he says was decidedly the most successful and beneficial that has been held. He delivered an address on the duties of the chiefs of fire departments under the present State laws. While in Charlotte he inspected building with a view to ascertaining if the fire escape laws are being complied with. There was an inspection in the principal towns and cities of the State a year ago and since that time many of the buildings that were found to be in adequately equipped have been brought up to requirements, but there are a number, he says, that have not complied with the law and the inspections now to be made throughout the State again will be with a view to reporting to the grand juries in the various counties those who persist in failing to meet the requirements.

## VISIBLE SUPPLY OF COTTON.

**Hester's Statement Shows Total of 3,224,991 Bales to Date.**

New Orleans, La., May 19.—Secretary Hester's statement of the world's visible supply of cotton issued today shows the total visible today 3,227,991, against 3,327,244 last week, and 3,243,646 last year.

Of this, the total of American cotton is 2,045,991 against 2,178,244 last week, and 2,054,641 last year, and of all other kinds including Egypt, Brazil, India, etc., 1,182,000, against 1,194,000 last week and 1,189,000 last year.

Of the world's visible supply of cotton there is now afloat and held in Great Britain and Continental Europe, 1,868,000, against 1,649,000 last year; in Egypt, 144,000, against 105,000 last year; in India, 638,000, against 749,000 last year, and in the United States 578,000.

BETTER STENOGRAPHIC SERVICE.

Did you ever notice that your stenographer does better work early in the day than she does toward night?

This is probably the reason: At the tip of each finger, close to the surface, is a sensitive nerve terminal.

Now, the constant pounding that is necessary to get action from the stiff, heavy keys of the ordinary typewriter soon tires her out. You can overcome this daily "three o'clock fatigue" by taking advantage of

Unexpected Guests.

The farmer and his wife were about to sit down to a cold supper when they saw some old friends driving towards the house.

The good wife was equal to the occasion—thanks to her New Perfection Oil Cook-stove.

She had it lit in a moment, and her guests hardly were seated on the porch before a hearty hot meal was ready for the table—sausages and eggs and long rashers of streaky bacon, and rolls just crisped in the oven and fresh coffee—and the hostess herself as cool and neat as if she had not been near the kitchen.

She never could have managed it with an old-fashioned range. The New Perfection is the quickest, most convenient and best cooker on the market.

# THE DROUGHT IN COLUMBUS

**Believed That Little Harm Has Been Done—Mr. Lee to Return—Politics Started Again—Other News Notes.**

(Special Star Correspondence.)

Whiteville, N. C., May 19.—Hon. James M. Shipman was in town yesterday and stated to your correspondent that the drought has thus far done no harm except to strawberries, and this shortage has been about made up to growers by the increased price received for their fruit.

Mr. Shipman says that never, within his experience, has he known a failure of crops in Columbus from dry weather, but he has frequently known them ruined or cut short by too much rain. He says he remembers one year when on the 4th of June no cotton was up, but rain came all the same and he made an excellent crop. Mr. Shipman says we will soon have rain now for snakes are moving around, and which is a certain rain sign; that they are hunting water, and instinct tells them it is going to rain. He said he had that morning counted six large moccasins on the side of the road that some one had killed and piled there.

Mr. R. E. L. Brown writes your correspondent that he will be home in Chadbourn after Wednesday. It will be remembered that Mr. Brown has been in Hendersonville, N. C., all the Winter for his health, and his host of friends will be delighted to learn that it is greatly improved. There never lived a man in the county more universally esteemed than Mr. Lee Brown.

The political pot in Columbus county is beginning to bubble. Mr. J. T. Best says he will make the race again for sheriff, and it is understood that Deputy Sheriff Ammons will also enter. Mr. Dan Hester will probably offer for Register of Deeds. It is not known as yet whether or not the present officers will retire or again make the race. Senator Simmons has some warm and loyal friends in Columbus county and they are already at work for him. But it is the belief of your correspondent that if ex-Governor Aycock makes the race that Columbus county will give him a large majority. Our people look on Gov. Aycock as one of their own folks, and know him to be an able, true and loyal man.

There is a servant famine in Whiteville, and it is next to impossible to hire cooks. Even the Columbus Hotel has no colored cook, but nice meals are prepared by two charming young girls, Misses Lizzie and Quinta High, and the guests, while not wishing to impose on these young ladies, are delighted with the arrangement. The strawberry crop has turned loose plenty of money among darkeys, and they will all quit work until this money is spent.

Wilmington receives a very large trade from Columbus county. A well-posted gentleman stated to your correspondent that he believed fully two-thirds of our people bought more or less goods every month in your city, and they say it is the cheapest market in all the surrounding country.

## CAROLINIANS AT CAPITAL.

**Clark Announcements—Central Highway—Other Notes.**

(Special Star Correspondence.)

Washington, May 19. — The announcement of Judge Walter Clark's candidacy for the United States Senate did not come as a surprise to North Carolina people in Washington for it had been expected for some time. Although none of the congressmen would stand for an interview on the subject it is pretty generally understood that this muddies the waters for Senator Simmons and Governor Kitchin. Judge Clark has friends in the State. The coming fight promises something for the Summer, Fall and Winter months.

Senator Simmons is sawing wood. Many invitations have come to get him to the State to deliver commencement addresses but being a member of the Finance Committee—the busy committee—he deems it his duty to remain here and perform his duties. He will be tied here until the extra session is over.

Senators Simmons and Overman have secured the promise of engineers and others to help the Central Highway Association carry through its great scheme, to run a road from Beaufort to the Tennessee line.

Some of the Tar Heel congressmen have been visiting. Mr. Webb went to Wake Forest to make an address; Mr. Page helped to dedicate a court house in Maryland; Mr. Kitchin went to Halifax to be with his wife who is ill, and Mr. Doughton spent several days in the district.

Representative Faison had good luck in securing fish. He got 15,600,000 young shad for the streams of his district.

Major Stedman made a capital speech on the statehood bill. He was complimented for his argument and his excellent language. H. E. C. B.

## RUN-DOWN CONDITIONS.

**Their Cause and Effect.**

Run-down conditions are caused by lack of iron in the blood and mal-assimilation of food. If you are one of the unfortunates who have drifted into this state, change your diet, eat foods that are rich in mineral elements of nutrition, and take Vinol, our delicious cod liver and iron tonic (without oil), which supplies iron to the blood in the most easily assimilated form.

A case is reported from Mattoon, Ill.—Mrs. O. M. Watrous was in very poor health for years. She was weak, all run-down, no appetite, and only weighed ninety-seven pounds. She had doctored for a long time without benefit. Vinol was recommended. She tried it, and in less than a year she was in perfect health and weighed 127 pounds.

Vinol creates an appetite, re-establishes perfect digestion and makes good, pure blood. In this natural manner it builds up the run-down, weak and debiliated, and replaces weakness with strength.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.—J. Hicks Bunting Drug Co.

## DIOCESAN COUNCIL.

**Annual Sessions at Rocky Mount Have Been Quite Busy.**

(Special Star Correspondence.)

Rocky Mount, N. C., May 19.—The second days' session of the 95th annual convention of diocese of North Carolina, was given over practically in its entirety to matters of business, and yesterday, despite the oppressive weather, business was handled with dipatch and the debates and discussions went along in such a way that much work had been done before the sessions closed last night.

The afternoon session of yesterday was in the main given over to a consideration of changes in the canon and the constitution of the diocese. The rules of business were changed in several instances, while there were suggstions of changes in the constitution but by the rules of the organization before a change in the constitution may be worked it shall be brought up and discussed at one annual meeting and at the next shall be passed upon. There were several suggested changes, none of public importance, that were tabled to await final disposition at the convention a year hence. There was an election of the standing committee and of the delegates to the missionary council. The treasurer of the organization was named in the person of Rev. Charles Johnson who was named to succeed himself. As the trustee of the University of the South, Rev. Francis Osborn, of Chapel Hill, was elected. As a trustee of St. Mary's School to succeed Dr. Murdock, deceased, Rev. Mallinckrod,o f Charlotte, was elected. Rev. Francis Osborne for the committee on church work at the University made a creditable report and asked for a continuance of the contribution from the diocese for this work.

The night session was opened by evening prayer by Rev. Gordon and Rev. Mr. Trott, after which the service was given over to Dr. Wilkins, of St. Louis, Mo., who is present at the diocesefo r the purpose of arousing interest in the work that is underway all over the nation in the raising of a fund of five million dollars for the aged and infirm clergy. Dr. Wilkins has charge of this work all over the nation and he is present at this convention with the one view of arousing an even greater interest in the raising of this amount.

At 7:30 this morning was celebrated the Holy Communion, while at 9:30 the convention assembled for morning player following which a short adjournment was taken before the entering upon the business at 10 o'clock. The business meeting this morning was given over to the reports of committees. The special committee on general missions of the church reported through its chairman, Rev. M. A. Barber, of Raleigh. Following this was the report of Rev. G. W. Lay, of Raleigh, chairman of the committee on the state of the church. After these reports were read they were filed with the secretary and entered upon the minutes.

The matter of an endowment of the University of the South, at Sewanee, received the attention of the convention for several minutes and it was finally passed that this diocese recommend the Nelson plan, which is to proportion the endowment among the dioceses of the Southern States. Dr. Pittinger, of Raleigh, presented a resolution endorsing the universal peace movement as advocated by President Taft, and upon a motion and second this body of clergy went on record as approving the same and heartily endorsing it. Rev. A. P. Berkley, of Mayoden, reported relative to the "Carolina Churchman," an organ of the diocese. There was a letter read from Mr. W. A. Smith, of Ansonville, who has in the past been a constant attendant at the diocese for a number of years in which he expressed his regret that his physical infirmity made it impossible for him to attend and to do committee service. After a reading of this letter it was, after a motion and second, ordered spread upon the minutes of the secretary. The report of the finance committee was read by its chairman, Rev. S. S. Bost, of Durham, following which the meeting was given over to the reports of the woman's auxiliary. These reports had only been touched upon when adjournment was taken for dinner.

## ANOTHER TRAIN.

**To Mullins, S. C., is Asked From the Atlantic Coast Line.**

(Whiteville News-Reporter.)

Much credit is due Attorney O. Hoy McMillan, of Mullins, says the Enterprise, for his attempt to get the Coast Line officers to give Mullins a new train. Tuesday he forwarded a petition to Supt. Craig, which was signed by a large number of the business men of this place, requesting the extension of the service of passenger train No. 57 and 58 from Wilmington to Chadbourn, on to Florence, making all local stops. It is thought there that he request will be granted. The Florence Daily Times of Tuesday contained:

"The petitition of the people of Mullins for a continuation of the Conway train to Florence has been sent to Mr. Craig, the traffic manager of the Coast Line's passenger business. It asks that the train that now stops at Chadbourn, the crew taking the Conway train downward bringing it back in the morning shall continue to Florence, arriving here about midnight, and leaving here after the arrival of the fast mail from the North, and thus giving us a train that will give the people of this section eleven hours in Wilmington. If they want to go to the beach or transact very much business, there will be a choice of trains both going and returning and traveling men and everybody will be benefitted, and it is said by those who are urging it, that it will cost nothing additional to the road to give this convenience.

"The Mullins people want the people of Florence and Marion and other points to join them in this request."

## A. & M. COLLEGE.

**Class Games—Getting Ready for Commencement— otes.**

(Special Star Telegram.)

West Raleigh, N. C., May 19.—The inter-class series of baseball games started last Monday with the defeat of the Juniors by the Sophomores, the score being 18 to 2. The Freshmen defeated the Short Course men yesterday 7 to 4. The deciding game of the series will be played next Saturday, when the Freshmen meet the Sophomores. The winners of this game will be awarded the silver loving cup given by the faculty.

The May School for Teachers opened Monday with an enrollment of 27. The school will last for ten days, a course in the principles of agriculture being given by the Agricultural Faculty.

On Tuesday George W. Trotter, of Charlotte, was elected captain of the 1912 track team. Trotter is a long distance runner, having won his monogram last year in the two mile run. He is highly regarded by the members of the track squad, and is a good man for the place.

There will be two commencement dances this year, the Sigma Phi Epsilon-Kappa Sigma dance coming on the night of the 29th, and the Kappa Alpha-Sigma Nu dance on the night of the 30th.

Mr. H. B. Derr, of the Cereal Corps Division of the United States Department of Agriculture, was at the college several days ago looking over the work of the College Experiment Station. He stated that he was highly pleased with the work being done by the station.

The class of 1914 have elected the following officers for next year: President, A. W. Farmer, of Wilson; vice president, J. F. Schenck, of Shelby; secretary and treasurer, H. M. Cool, of Southport; the class historian and class poet will be elected next Fall.

## SUES FRANK B. HAYNE.

**Big Suit at Asheville Against Noted Cotton Speculator.**

Asheville, N. C., May 19.—Frank B. Hayne, the noted cotton speculator of New Orleans, is defendant in a damage suit for $100,000 to be heard in Henderson county Superior Court this week. The suit grew out of his sensational attempt to gain possession of property for a Summer home which he bought from Mrs. L. J. Wooley, granddaughter of the late Senator Thomas H. Benton, of Missouri. Mrs. Wooley claimed that she was to be given several months to surrender property after purchase in order to remove crops. Hayne demanded immediate possession and when refused his agents started to dynamite buildings on the property, being prevented only by quick action of the sheriff. He then instituted arrest and bail proceedings in the United States Circuit Court and lost, the Circuit Court of Appeals affirming the lower court. The case is now pending in the Supreme Court. In the meantime, Mrs. Wooley began civil suit in the State court.

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Saturday, May 20, 1911.

A man will take a whole day off to go fishing but he hates to lose the time required to put up the strings for the porch climber.

The way of the transgressor is hard, but he should consider the plight of the wayfarer whose way leads through a country that has no good roads.

When Mary Garden recently gave a performance in Buffalo, a critic remarked that "she wore an air of indifference." Judging from what's been said, that constitutes the most of her stage apparel.

Says the Washington Post: "Col. Roosevelt bound 1,200 delegates to silence and then delivered a secret address." Gee! didn't he know that some men tell their wives everything that happens and then some more that never happens?

Some people hold on so long it makes other people tired. At the same time a quitter is not admired unless he quits to give somebody else a chance. Now there's our old friend, President Diaz, of Mexico, who is in a position to recognize the truth of everything said in these few lines.

The country generally will agree with Justice Harlan that the courts should not amend the constitutions and statutes. The courts are to construe the construction and interpret the law, but that is what they are satisfied they are doing. It all comes from the point of view one takes of it.

Some eminent physician says: "A woman would be better off if she didn't wear any hat." It would strike the average man that it would be her husband who would be better off—by saving the price. At the same time that is just a one-sided, sordid view that no man would entertain for three seconds.

Now we are told that M. Omessa, a French historian, declares Napoleon never was confined on St. Helena. The story goes that the French Emporer fooled the British with a double, and that there is ample proof that St. Helena never harbored so distinguished an exile as Napoleon the Great. Sooner or later it will be denied that the moon is made of green cheese.

A Baltimore man and his wife had a quarrel about who should make suggestions to the cook. The cook left but the quarrel was resumed because the wife suggested that her husband should do the cooking. Just how the disturbance will end no one knows, but the wise man will learn from it to "saw wood" and fight shy of making suggestions when they may result in his becoming a mony-coddle to be used around the house.

The Greensboro Telegram announces that Mr. R. W. Haywood, formerly editor and proprietor of that paper, is back in the newspaper field. Mr. Haywood is now a member of the editorial staff of the Richmond Virginian, of which the brilliant Robert L. Gray was recently editor. Thus, the Virginian has made a second draft on North Carolina's journalistic talent, and its second draft is likewise a good one. Mr. Haywood is an experienced newspaper man, and there are mixed in him the combined elements of character, conviction and ability that make him a splendid acquisition for a paper of the high ideals of the Virginian. Bob Haywood is a graduate from The Star institute of scribedom and we are proud for one like him to show his diploma from this sanctum. The Virginian has a good eye.

## REMORSELESSNESS OF FIRE.

What is this we hear concerning a disastrous fire which consumed more than 200,000 bushels of peanuts which went up in smoke with the five-story factory of the largest peanut haudlers in the world? The Washington Post bewails and alleges this is more than half the entire visible supply of peanuts in this country. We admit that a serious situation has arisen, for it is stated that less than three per cent. of last year's crop remains in the hands of the producers, while the estimated crop of this year will hardly meet the demand because of the fact that even the society people have recognized the aristocracy of the groundnut.

However, with fire getting in its work, a ravenously growing damand, and production being indifferent, the consolation is that the premier Wilmington peanut will be gobbled up at high prices this Fall. It is the fine flavor, the butter-ball plumpness and the absolute perfection of the Wilmington peanut that has established its reputation, and places it at the head of the entire peanut family.

Some time ago, the Star made some laudatory reference to the peanuts grown in the sandy loam of eastern North Carolina, and explained that their plumpness and quality was on account of our long growing season for their full maturity, the ideal soil for their propagation, and the equable moisture and other climatic advantages that constitute the factors in the unrivaled superiority of the Carolina grown peanut. That Star article brought large wholesale orders from Louisiana and Mississippi, where the planters have taken to growing peanuts as a substitute for cotton, which the boll-weevil has made unprofitable.

This shows what publicity will do, and it is right along the line of the new and wise plan of advertising a country's best products and adaptabilities in order to make the country famous. Texas has long since been advertising her onions, beans and such truck, and recently the rice growers of Louisiana decided to chip in and get some widespread publicity for their rice and the adaptabilities of that country for rice production. Here eastern North Carolina has her unrivalled strawberries, unsurpassed lettuce, superior peanuts, and scores of other things which are recognized for their pluperfect merit, yet we plod right along and neglect to take a hand in the publicity game.

We have no doubt you recently read newspaper articles concerning the reputation of Texas grown Bermuda onions and generally how they are raising cain down in Texas along all lines. Why, those are nothing in the world but interesting publicity articles sent broadcast to the newspapers all oper America. It just shows how smart and wideawake Texas people are. They certainly are making enough noise to wake us up in North Carolina.

## THE QUESTION OF FACTORIES.

It is all right to erect new buildings, to establish new suburban settlements, and spend our $900,000 of bond funds for improving and extending our waterworks, for putting in a more modern and greater sewerage system, and for putting down up-to-date streets and pavements. However, while we are doing that, and also engaging in the hundred and one other things that will make Wilmington, let us not lose sight of the factory question.

Some one asked us the other day if we ever knew a seaport to be a monufacturing town. As a matter of fact, there are a great many of them, and in the United States the greatest city in it is a manufacturing town. That city is New York and a good authority says it is the greatest manufacturing city in the world. It is said New York's manufactures are greater in value than are the manufactures of any one State in the Union.

In an address in New Orleans a few days ago, Mr. John Charles Harris was the speaker at a luncheon given by the Chamber of Commerce. His subject was manufacturing and he took New York for his object lesson. That city is permeated with manufacturing establishments of various kinds and is honeycombed with small industries. Every visitor to New York, he said, sees signs away up on the sky-scrapers advertising manufacturing concerns of which he has often heard, and the products of which can be found in every store in America. Many kinds of light manufacturing are carried on in the very heart of New York, and every factory, big and little, draws trade and money to the city. They furnish employment to hundreds of thousands and that makes buying of food, clothing, etc., all going to make a busy, bustling New York.

Mr. Harris says a manufacturing concern working only 50 hands, taking the managers, employes, teams, etc., means $50,000 annually added to the wealth of the city. Don't let anybody spring the seaport racket on you as to manufacturing, for seaports do man ufacture and can manufacture if they have live people. Transportation and distribution facilities and other advantages are greater at a seaport than in any inland city, but the reason interior cities are ahead of us on the manufacturing line is because their people went to manufacturing instead of inviting somebody else to come and do it for them.

## EQUAL PAY FOR WOMEN.

We always did despise the mock gallantry that makes a man exceedingly deferential to woman while he pays her half price for as good or better services as those rendered by a man. It has been an old doctrine of The Star that a woman is entitled to as much recognition as a man when she can render just as valuable service.

Several years ago we endorsed the fight of the woman teachers of New York for "equal pay" with male teachers. We are glad, therefore, that these New York women teachers have won after years of systematic agitation and work. An Associated Press dispatch announces that more than 14,000 women teachers in the elementary schools of the city had their long agitated "equal pay" demands granted by the Board of Education last Wednesday. The board arranged to hold another meeting to take up the question of also equalizing the pay of men and women teachers in the high schools.

Of course, the high school teachers are just as much entitled to it as the elementary teachers. This is a "square deal" that ought to be extended along every line in which women are employed. It is right. It is just.

The man who can't recognize that a woman is entitled to fair treatment in business ought to quit chipping in for the foreign missionary fund till he ceases himself to be a fit subject for the attention of the missionary. We are pretty well satisfied that women would rather have more genuine consideration than so much conventional politeness.

All of us men who tip our hats and give up our seats in a street car when a woman comes along, and yet don't give women an equal showing with men when the same class of service is performed, are living examples of the most unblushing humbuggery.

St. Peter is making up a startling record against some so-called "good men" whose conscience hasn't been waked up with the "square deal." The "square deal" is nothing in the world but the rough rider synonym for the "Golden Rule."

If men had to work for the pay women have to take because they can't help themselves, the country would be full of wild-eyed anarchists. Gallantry does not consist alone in "bowing and scraping."

Lo! Man is few of years and full of one darn thing after another. In the roseate days of his youth he goes forth to conquer some fair maid. Life to him hath resemblance to romance. He buyeth the flowers and his outflow of wealth goeth a long way toward creating profitable industries, such as manufacture fine confections and bon-bons. Alas! He conquereth nothing! He is captivated, captured, lettered and bound with the bonds of matrimony. Alas! His latter days are full of prevarications and excuses for not coming home early and often, and the penalty is pushing the lawn mower at early morn and putting out the trash barrel by the pale light of the moon. Woeful is man that the beginning is romance and the end is reality.

## CURRENT COMMENT.

The temperance sentiment does not wane. The aldermen of Concord and the commissioners of Cabarrus county have ordered that liquor cannot be sold in drug stores in towns or county. This is a warning to drug stores elsewhere that are trying to make money by selling whiskey. All counties will follow the example of Cabarrus where druggists take advantage of the privilege to dispense liquor for medicine to make the stuff easy for those who do not need it as medicine. —Raleigh News and Observer.

In answer to a letter, Justice Walter Clark yesterday announced his candidacy for the United States Senate. He goes the whole hog—initiative, referendum, recall and all. In other words, according to Mr. Bryan's standard he is O. K. in capital letters. Judge Clark is one of the ablest men in the country; there is no denying this. He has an army of friends and his candidacy will serve to muddle up things in great shape, for with three men, if no more, in the race, the primary will not settle it and the Legislature will be called on. Such being the case why have a primary and stir up the people? There is some talk of Aycock getting in, but his announcement has not yet been made. But why not get in? Four men would make it interesting. —Greensboro Record, April 18.

Mr. James A. Parham, editor of the Fayetteville Index, recently made a trip through some of the rich farming lands in Robeson county, notably Cotton Valley, and was much impressed by the great forward strides made and being made in the methods of farming and the marked improvement in the general status of the agricultural interests. He finds that the progress made in the last dozen years has been both intensive and extensive. But the trend now is distinctively intensive. This applies especially to the central, eastern and northern portions of the county. "Just now and for the past few years," says Mr. Parham, "the policy has not been more acres, but better acres. Where formerly a farmer thought he was doing well to produce a bale of cotton to every two acres, now he wants a bale to the acre and many of them are getting it. Where formerly a farmer would have thought his land ruined forever if he had been plowing six inches deep, he goes a foot. Where formerly the soil was broken by a small shallow plow drawn by an ox or a small mule, now it is broken by a sub-soil or a disc harrow or two-horse turn plow, and instead of the plowman plodding his weary way, he rides while he works. Where ten years ago only simple crude farming implements were in use one sees new labor saving harrows, cultivators and sulky plows and all kinds of farming machinery, unknown in that section at the beginning of the new century. Farmers who a half dozen years ago went four to six times to the row to plow out the corn, now go but twice with a one-horse harrow or clean out the entire row at once with a two-horse sulky plow." What has been said of Robeson county can be said of almost every county in North Carolina. Farming is no longer considered a beggarly occupation. A good farm beats a cotton mill or a gold mine. The man who cannot make money on a farm could be a success only as a loafer.—Charlotte Chronicle.

## ASHEVILLE REORGANIZING.

New City Government Takes Chrage Several Changes Made.

(Special Star Correspondence.)

Asheville, N. C., May 19.—In the caucus which lasted about four hours Wednesday afternoon the new board of aldermen of the city of Asheville named the city officials who will in all probability be elected at the regular meeting. There is no little dissatisfaction in certain quarters on account of some of the appointments. Chief of Police Chambers is to be succeeded by D. K. Lyrely. City Attorney Bernard is to be succeeded by J. Frazier Glenn. L. W. Young is to succeed A. L. Stockton as clerk of the police court. J. H. Wood is to be given the position of fire chief. These last three were members of the retiring board of aldermen and some of the dissatisfaction is caused by this fact. There will be a number of other changes in the police force and in the minor offices.

## "NOT STARS AND BARS."

Mr. Gudger Made a Mistake in Referring to Flag.

(Special Star Telegram.)

Washington, D. C., May 19.—In a speech delivered by Representative Gudger, the "Stars and Bars" were used instead of the "Stars and Stripes," in reference to the United States flag. Mr. Kendall, Republican, of Iowa, called the attention of the House to the speech in the record this morning and intimated that a correction was in order. Mr. Gudger said it was not, that he merely made a slip of the tongue, the stars and bars being nearer to his heart than the "Stars and Stripes."

THE REAL FACTS ABOUT MRS. FINCHER

As Told by Herself, in a Letter Lately Received, Giving Full Particulars About Her Case.

Peavy, Ala.—"I had been troubled a little for about 7 years," writes Mrs. Ludie Fincher, of this place, "but was not taken down, until March, 1907, when I went to bed and had to have the doctor.

"He did all he could for me, but I got no better. I hurt all over, even to my arms, so badly I could not rest. I had pains in my sides, back, bowels, shoulders, and chest. I can't tell how I did suffer.

"At last I began to take Cardui, and I hadn't taken but half a bottle, until I began to improve.

"I continued to take it, until I had taken four bottles, and now I am in very good health and able to do all my house work."

You may wonder why this medicine is so successful in curing sick women, after other medicines have failed. This answer is not far to seek.

Cardui is successful, because it is composed of ingredients that act specifically on the womanly constitution. It is not a cure-all. It is a medicine for women and only for women.

Its success is due to its merit.

Try it.

## DIES OF HIS INJURIES.

Negro Shot by Officer at Newbern Succumbs to Wound.

(Special Star Telegram.)

Newbern, N. C., May 19.—On the night of April 24th, George Green, colored, was found in the market by J. A. Boon, on upper Broad street, by Officer Ipock. Officer W. B. Parker was called and when detected Green with a large butcher knife in hand, cut his way through the screen window, and although repeatedly told to stop, kept going hereupon he was shot by Officer Parker, making a flesh wound in the thigh. He was carried to Stewart Sanatarium where he died yesterday. Coroner R. D. V. Jones at once empannelled a jury which this afternoon rendered a verdict that Green came to his death by a pistol shot in the hands of W. B. Parker, who shot as was in accordance with his duty and in defense of his person.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gary Hair.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural, and indicates that there is something wrong with the individual, and that Nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with Nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent J. Hicks Bunting Drug Co., Corner Front and Grace Streets.

# THE NEW TAX ORDINANCE

**Complete With Exception of Few Items—Ad Valorem Tax Probably the Same—Near-Beer Saloons Close June 1st.**

The City Council was in session for nearly three hours again eysterday afternoon for further consideration of the tax ordinance which was taken upat the session Thursday afternoon. With the exception of two or three schedules, the Council has practically decided upon the tax ordinance for 1911, though it will not be acted upon formally until some time next week, when the schedules will be considered as a whole.

There are several changes as to license or privilege tax, but it is very likely that the ad valorem tax will remain the same as last year, $1.30, though this has not been definitely decided as yet. There were a number of other matters considered yesterday afternoon and it was really an important meeting. A sepcial meeting will be held at 4 o'clock Monday afternoon at which time a city engineer may be elected.

The meeting yesterday afternoon convened shortly after 3 o'clock, Mayor Joseph D. Smith presiding and Councilmen P. Q. Moore, W. E. Perdew, M. G. Tiencken and B. C. Moore; Capt. Thos. D. Meares, City Clerk and Treasurer, and City Attorney Herbert McClammy in attendance Tax Collector Chas. H. White was present during a portion of the session while the tax ordinance was being considered.

The following rules for the regulation of the Treasury Department were adopted, upon motion of Councilman Tiencken, in charge of the department of the Accounts and Finance:

"1. All officers, or employes, authodized to collect money for the city are required to pay the same over daily to the treasurer.

"2. All money received by the treasurer must be deposited in the bank or banks designated as depositories.

"All funds, not needed for working uses, to be deposited on certificates of deposit," which certificates shall read in the name of the City of Wilmington and be cashed or exchanged only upon signature of the city treasurer, countersigned by the Councilman in charge of Accounts and Finance and the Mayor, or in the absence of either by some one of the Councilmen."

Council then resumed consideration of the tax ordinance where the work was left off Thursday afternoon. On all automobiles and taxicabs used for hire the Council decided to require a tax of $10 a quarter. The tax on billiard, pool, bagatelle, or tables of like character, was increased from $9 to $10 a quarter for each table, and the tax on bill posters was increased from $50 to $100 per annum. The Council decided to exact from carnivals all the law will allow. Carnivals of not more than six attractions conducted for profit, will be charged a tax of $200 a week; if consisting of more than six attractions the tax will be $300.

A change that was so earnestly sought by the Board of Audit and Finance last year and as strongly opposed by the Board of Aldermen, was made by the Council in extending the graduation of the tax on dealers, wholesale and retail, on business up to $100,000 a quarter, whereas heretofore the maximum was $50,000 a quarter. The following shows the tax on dealers as now arranged: "If gross sales are less than $500 per quarter, $3 per quarter; if over $500 and less than $3,000 per quarter, $5 per quarter; if over $3,000 and less than $10,000 per quarter, $8 per quarter; if over $10,000 and less than $20,000 per quarter, $15 per quarter; if over $20,000 and less than $50,000 per quarter, $20 per quarter; if over $50,000 and less than $75,000 per quarter, $30 per quarter; if over $75,000 and less than $100,000, $50 per quarter; if over $100,000 per quarter, $75 per quarter."

The tax on electric light or power was increased from $105 to $125 a quarter; tax on express companies increased from $50 to $75 a year; on fertilizer companies from $60 to $250 a year; on fertilizer dealers or agents from $60 to $250 a year; hacks, carriages and other vehicles from $5 to $10 a quarter, with a view of running some hacks out of business; ice manufacturers from $100 to $150 a year; piano and organ dealers, $20 a year.

The tax on installment dealers was decreased from $50 to $25 a year with the understanding that it should be rigidly enforced against all dealers doing an installment business. The furniture dealers who do an installment business have heretofore gotten out of payment of this tax, it was stated, but Council proposes to see that they pay under this head hereafter. The tax on telephones was increased from $100 to $200. Should the telephone company kick on paying the increased amount and endeavor to get out of paying anything under authority of a law enacted by the recent Legislature, it is not improbable that the company will be asked to place all its wires under ground in the city limits. The tax on manufacturers of wines is increased from $30 to $50 a quarter. On all manufacturers not specified in the tax ordinance a tax of $6 a quarter will be exacted.

The Council left open for some days the tax on dealers in beverages, which has been $300 a year. It is understood that there is a provision in the Revenue and Machinery act with reference to a tax on malt and it is a question whether this will permit the sale of malt throughout the State, so the question of fixing the tax on the dealers was left open until an opinion is had from Attorney General Bickett, it having already been requested by City Attorney McClammy. The near-beer dealers, it is said, hope to continue in business under authority of the provision in the Revenue and Machinery Act mentioned, and they have engaged attorneys to appear for them in the matter.

Members of the Council desire to break up so much of this night hack business. As noted above, the tax on hacks, carriages and other vehicles used in tranferring passengers, was increased from $5 to $10 a quarter. This does not apply to livery stables paying tax under Section 59. The Council went a step further. At the request of Councilman Perdew the city attorney was instructed to draft an ordinance prohibiting the use of curtains on the vehicles except during rainy and very cold weather. This will be considered at a later meeting.

There are one or two other schedules which are left open for a few days. The ordinance as a whole will be adopted at one of the meetings next week.

The budget has not yet been considered, but will be taken up by the Council at the regular weekly meeting Tuesday afternoon.

Councilman B. C. Moore brought to the attention of the Council a complaint that there are numbers of manholes projecting above the street in various parts of the city. It was decided that some materials should be used to bring the street up to the top of the manholes.

**Near-Beer.**

Mayor Smith brought to the attention of Council the matter of granting the near-beer dealers license to do business through the month of June should they make application. The law prohibiting the sale of near-bear, etc., does not become effective until July 1st and the State Treasurer has instructed all the sheriffs to issue license to applicants for the month of June. The State tax is $40 a year and the amount for one month will be pro rata. The Council took the view that it might as well close up the places June 1st as July 1st and voted unanimously not to grant license for the month of June.

There was some discussion with reference to putting tax of something like $300 a year on soda fountains, not run in connection with a drug store. No action was taken on this matter which will be considered again at a later meeting.

Mayor Smith called attention to the need of a crematory to dispose of all the refuse and garbage. The Councilmen were favorably impressed with the suggestion that a disposal plant be provided.

Councilman B. C. Moore desired Council to take some action in regard to the surface closets, of which there are some 3,000 in the city. He suggested the sanitary can system which is being used in Raleigh. This brought up the question of providing a sewerage system for the city. The State Board of Health has the plans for the proposed system, but no report has yet been received. Councilman Perdew wrote Dr. W. S. Rankin, secretary of the board, some days ago asking him to hurry up the report, but a reply to the letter had not been received yesterday. The Board of Health has been exceedingly slow in giving report on the plans for the sewerage system.

Councilman P. Q. Moore stated that he was anxious for the Council to select a city engineer so that the street work could go forward without any delay. After some discussion, it was decided to hold a special meeting at 4 o'clock Monday afternoon at which, it is hoped, the matter will be disposed of. Applicants for the position who have not been heard by the Council are invited to attend the meeting Monday afternoon.

Just before adjournment the Council elected Miss Mildred Maunder stenographer of the city at a salary of $50 a month, and it is thought probable that she will accept. Miss Maunder was clerk in the health department of the city for several months, resigning some months ago to accept a stenographic position.

## IN MEMORY OF A FRIEND.

**Faithful Colored Man Writes of Boy Whom He Loved Dearly.**

(Communicated.)

We hold this, 20th day of May, as a day of memory, this being the 15th anniversary of the death of my little friend, Jeff Moore, son of the late Colonel and Mrs. Roger Moore, who departed this life May 20th, 1896; since which time I, "Black Oscar," and the family have always held the day in loving memory. I would like to say there is still a warm spot in my heart for him—little Jeff was one of the warmest hearted little boys that ever lived. He was devoted to all who knew him, both white and black, and was dearly loved by "Black Oscar," the writer of this humble tribute to his memory. There never lived two people closer connected in love than little Jeff and I. We must have been a David and a Jonathan and thou, God, has seen fit to take him from labor to reward. We feel that our loss is Heaven's gain. Little Jeff died at the age of 12 years and as a tender hearted little child would often spend the day with me, "Black Oscar," and dine with me at my house rather than at his own house where he had a home of culture, joy and plenty.

This being the 15th anniversary of his death, I ask the many friends who knew him to let their minds run back and think of what a good-hearted little boy he was and bow with us in prayer and thanks to God for this day.

# ANOTHER BUSY DAY IN COURT

**Three Hours' Session Yesterday Morning During Which Several Were Convicted and Given Sentences.**

The Recorder's court had another busy day of it yesterday the session lasting for nearly three hours. Substitute Recorder Harriss presided, Recorder Furlong being detained at home on account of the illness of one of his children. The most important case for investigation yesterday was one against Geo. Dudley, colored, charged with violating the State prohibition law.

Dudley worked at the Eastern Star Hall, and it is charged that last Saturday night he sold two half pints of whiskey to David Hines, colored, who was making the purchase for Henry Slater, colored, who indicted Hines for selling whiskey because he failed to return him all the change that was due him. Hines was tried some days ago, found guilty, but judgment was reserved until the trial of Dudley. Hines testified yesterday morning that he purchased two half pints of whiskey from Dudley for Slater. The acting Recorder found the defendant guilty and sentenced him to six months on the county roads. An appeal to Superior Court was taken. L. Clayton Grant, Esq., appeared for the defendant, while the prosecution was represented by Assistant City Attorney Geo. L. Peschau and County Attorney Marsden Bellamy. Judgment was pronounced in the case against Hines, who was fined $25 and costs, or 30 days on the roads. He had not raised the amount yesterday afternoon.

Madge Bolton, colored, indicted for assault on a young white man, was found not guilty. An officer saw her throw something and he thought that she was trying to hit the young man, but the young man testified in court that the woman was not throwing at him and that they had not had a quarrel. Thos. Boon, colored, was required to pay the costs for allowing his goat to run at large. W. P. Tucker, said to be a negro preacher, was fined $10 and costs for being drunk on the streets. Fred Williams, a colored youth, charged with rapid riding of his bicycle through the streets, was released, his father agreeing to give him a good whipping.

Mary Brown, colored, whose name has appeared right much this week in connection with court news, was before the court again on two charges. She was given 30 days on the farm for assault with deadly weapon on Maude Lone, while a nol pros with leave was taken in the case charging larceny. The woman received three months at Thursday's session, so she has a total of four months to serve. Josephine Blackburn, colored, was found guilty of stealing a white dress and shirt waist from Lula Hill, also colored, and was given three months on the county farm.

Geo. Dudley and Grady Lee, colored, were arrested in court yesterday morning on a warrant charging them with keeping a disorderly house at 13th and Red Cross streets, the name of the place being "Little Lumina," which is said to have given no little trouble during the past few weeks. The defendants will be tried at today's session of court. The cases were brought by Chief of Police Fowler, who has recently made investigation of the place.

## GRAND CHANCELLOR COMING.

**Joint Meeting of Pythian Lodges on Monday Night—Pleasant Affair.**

District Deputy Grand Chancellor Thos. D. Meares, Jr., of the Knights of Pythias, is advised of an official visit to the lodges in this city and section on Monday by Grand Chancellor A. E. McCausland, of Charlotte, and arrangements are being made to give this official a rousing welcome to the country of the Cape Fear. Mr. McCausland has been prominent in Pythian circles in the State for a number of years. He will arrive Monday and will be a guest of District Deputy Meares at his home on Market street. Monday night there will be a joint meeting of all the Pythian lodges of the city and of Delgado and a plasing entertainment is assured. All Pythians are cordially invited. It is also likely that the Grand Chancellor will also be shown other entertainment while here, the programme of which will be announced a little later.

**Tried in Two Cases.**

Mattie Allen, a denizen of the underworld, was given hearing yesterday in two cases—assault and battery and a peace warrant. The assault and battery case was heard by Justice Bornemann, who taxed her with costs. It was alleged that she struck Myrtle Morrison, also a white woman. The peace warrant was sworn out by Myrtle Morrison before Justice Harriss and the hearing was before Justice Silverman yesterday afternoon. The justice required a bond of $250 to keep the peace for six months. Mattie Allen in turn indicted Myrtle Morrison on a peace warrant in Justice Bornemann's court and the hearing will take place Monday.

Finally we tried Dr. King's New Discovery and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." Wednesday, June 7th.—John D. Bellamy vs. W. R. Morrison, et al.; M. F. H. Gouverneur vs. Harriman Motor Works; P. G. Kelly & Co., Inc., vs. N. E. Gallagher.

# TRAGEDY AT FORT CASWELL

**Al. Warden, Young Soldier, Committed Suicide Thursday Night by Shooting—Body Will be Sent to Nebraska.**

Al. Warden, 21 years old, a native of South Dakota, member of Company 79, Coast Artillery Corps, stationed at Fort Caswell, committed suicide in his tent by shooting himself Thursday evening about 7 o'clock, news of the tragedy having reached the city yesterday morning. The body was brought to the city late in the afternoon by Mr. James F. Woolvin, the funeral director, and will be shipped this afternoon to Plain View, Neb., where the interment will take place.

It appears that the young man made two attempts to end his life before he was successful. Thursday morning he went into a tent occupied by a young man named Daniels and after remaining a short time went out. A little while afterward Daniels started to clean his rifle, which he did not think was loaded. He pulled the trigger and there was a discharge. The bullet entered his foot, injurying him seriously. It is thought that Warden entered the tent to end his life and loaded the rifle for this purpose, but hearing the approach of some one decided to postpone the job until later.

Abqut 7 o'clock Thursday evening the report of a gun was heard in Warden's tent. Soldiers in adjoining tents rushed to the tent from whence came the sound of the rifle and were horrified to find Warden lying on the floor with his head blown away by the rifle bullet, which evidently entered about the center of the forehead.

The young man had been at the fort only since last February, going there with a number of other enlisted men. It is said that he was not drinking and it is thought that worry over something led to the commission of the rash deed, no other cause appearing. Mr. Woolvin was notified yesterday morning of the tragedy and was asked to go to the fort for the body. He returned at 6:30 o'clock on the steamer Wilmington. A detail of soldiers will probably come up from the fort this morning to escort the remains to the train this afternoon.

## RECKLESS NEGRO AUTOISTS.

**Smashed Buggy on Castle Haynes Road Last Night—No Alarm.**

Last night about 9:30 o'clock, while seated in a buggy in front of the residence of Mr. J. W. Windley, about two miles out on the Castle Haynes road, waiting for some one in the house to come out, young Mr. Woolard Miller, who lives with the family of Mr. W. W. King, in the neighborhood, was suddenly hurled from the vehicle some distance and painfully but not seriously injured, as the result of being struck by an automobile in which three persons, supposed to be colored, were driving at a rapid rate to the city. The negro autoists gave no warning of their approach and had only one oil lamp burning. The buggy, which belonged to Mr. King, was demolished and the most regrettable feature of the accident was that the negroes did not even stop to inquire of the damage or offer any assistance. An effort was made to reach them before they arrived in the city but this was impossible, though officers will continue to work on the case.

# MARINE RAILWAY FACILITIES

**Subscriptions to Stock Have Already Begun—Proposition From Capt. Louis H. Skinner—Amount of Capital Required.**

The Chamber of Commerce and the newspapers of Wilmington have repeatedly advocated the establishment in the port of Wilmington of a new ship railway, suited to the increasing demands of shipping, especially of steamboats engaged in Cape Fear traffic.

Several suggestions have been made by interested ship masters, owners and merchants, looking to the establishment of such convenience at this port, which is so greatly needed; but nothing definite has resulted from these suggestions.

Captain Louis H. Skinner, who owns the only suitable place for a marine railway, now comes forward and offers his property, known as Skinner's Ship Yard, at a very low valuation, which he paid for it several years ago, before the advance in real property along the wharf, provided that subscriptions to the amount of $40,000.00 shall be raised and a company formed, which will at once establish upon this property a first-class marine railway, capable of taking up ships of 1,000 tons, the estimated cost of which is $18,000.00; the remainder of the capital proposed to be used for the purchase of the site designated, and for suitable buildings on the property, and for working capital; all subject to the direction of a board, to be appointed by the stockholders.

Captain Skinner has already received on this basis about $13,800.00 in subscriptions, and more will be raised during the remainder of this month, by which time it is hoped that the sum desired will be realized and a meeting of the subscribers called for the purpose of organizing for active work.

More than $50,000.00 of repair work, which ought to have been done in Wilmington, has been done elsewhere at great inconvenience to those who desired it, and a new dock with added facilities and on a more favorable grade than the present one, would secure much business along the coast which has hitherto gone elsewhere.

Without such facilities, the port of Wilmington is very much handicapped, and it behooves all of our public spirited citizens to come to the help of this undertaking, which means so much for the welfare of our marine interests.

## CELEBRATION OF THE 20TH.

**Events at Wrightsville Beach Participated in by W. L. I.**

There will be no formal celebration in Wilmington today, May 20th, the anniversary of the signing of the Mecklenburg Declaration of Independence, but as usual the day will be pretty generally observed here. The banks will be closed and many of the public offices will also be closed. The only celebration of the day in this section will take place at Wrightsville Beach, under the auspices of the Wilmington Light Infantry, and it is expected that hundreds will visit the resort during the day and evening.

Members of the company will go to the beach on the 10 o'clock car this morning and the first event will be the annual competitive shoot for the company cup. Later in the day there will be a shoot between teams representing the company and the Reserve Corps. In the evening there will be a dance at Lumina and the annual competitive drill. This will be the first dance of the season at the beach and it is expected that there will be a large attendance of the young people of the city. Special cars will be operated by the Tidewater Power Co., tonight at 8 and 8:30 o'clock. The committee in charge of arrangements for the day is composed of Messrs. E. C. Hines, chairman; Z. K. Bell, James B. Lynch, H. O'Neill and R. H. Grant, Jr.

I desire to make a public expression of my heart-felt thanks to those of our many friends who were so kind to myself and family, both at home and the hospital, during the illness and death of my beloved wife and for the many beautiful floral tributes which betokened your love and esteem. Your sympathy and kind words were of great comfort to me and together with a deep appreciation of your love I shall always hold you all near to my heart. C. W. CRAIG.

### THE ROAD BOND MATTER.

**False Impression as to Amount of Previous Bond Issues—Election.**

Owing to a false impression regarding previous bond issues for road improvements in New Hanover county, County Treasurer H. McL. Green desires to state that they have amounted to $150,000, instead of $200,000 as has been erroneously stated in an article on the road question. The election for an additional bond issue of $50,000 which is called for the 31st of this month, if it carries, will bring the amount up to the $200,000 mark.

In summarizing the work accomplished in road improvements in the county with previous bond issues and the general state of affairs at present, Treasurer Green gave out the following: Six miles of road macadamized to Masonboro; two miles to Greenfield; four miles macadamized on Federal Point road; nine miles to Castle Haynes; twelve miles to Scott's Hill; purchase of turnpike and re-capping it nine miles. This summary of the work shows a total of 42 miles graded, macadamized and otherwise improved with bond issues amounting to $150,000. The taxes on the above bonds for one year to pay interest and create a sinking fund cost taxpayers only four cents on the $100 valuation. Out of the previous bond issues the cash on hand at present in the general road fund is $3,330.02 and for the road sinking fund $14,381.97.

Another bond issue being necessary to carry on the road improvements in the county, privilege was granted the county commissioners to call an election by an act of the Legislature.

The registration books, which have been open for some time at various precincts, will close today. A new registration was required for this election.

—The funeral of Ida Augusta Dickson, little daughter of Mrs. Flora Dickson, was held from the family residence, No. 514 Dawson street, at 4 o'clock yesterday afternoon, conducted by Rev. G. T. Adams, pastor of Fifth Street Methodist Church. The interment was in Oakdale cemetery.

### EARLY NORFOLK TRAIN.

**Rapidly Becoming Popular With Traveling Public in Spite of Hour.**

In spite of the early hour of its departure and the absence of any Pullman accommodations as are given out of Wilmington on the later trains leaving Wilmington, the new train on the Wilmington & Weldon railroad is growing in popularity with the traveling public and its patronage is becoming very satisfactory. Yesterday morning more than a dozen passengers, including Judge Connor and other officials of the Federal Court, found the train quite convenient to return to Raleigh on, leaving here at 3:40 A. M. and reaching the capital city in time for breakfast. Many traveling men are also taking advantage of the early train to make their territory without having to drive over the territory between here and Goldsboro by private conveyance. Parties leaving Wilmington on this train may visit most any point in Eastern Carolina, have several hours for the transaction of business and may return the same day.

Postmaster T. E. Wallace is allowing no grass to grow under his feet in the matter of meeting the requirements of the mail service by this new schedule and about half the mail that usually reaches Wilmington on the 10:19 train in the morning now reaches here at 1 A. M., is distributed and delivered to every business man by the time he reaches his desk in the morning. Regular mail service has not yet been inaugurated on the train but Mr. Wallace is handling the mail splendidly by means of what are known as "express mail pouches" and the arrangement is highly satisfactory.

### FINAL AWARD OF PRIZES.

**Grand Premiums for Catholic Bazaar Were Decided Upon Last Night.**

Last night in the Knights of Columbus Hall a meeting of the congregation of St. Thomas' Catholic church, the committee in charge and a number of friends, was held at which the remainder of the grand prizes at the recent Catholic Bazaar were awarded as follows:

Steel range, W. B. Munroe, city; lavatory, D. Ray, city; first prize, silver service, J. K. Corbett, Baltimore; Japanese vases, John Feenan, city; Japanese table cover, D. R. Pruitt, city; anniversary clock, Miss Charlotte O'Neill, city; eight-day clock, D. W. Costin, city.

The net proceeds of the bazaar were something over $2,200 which is highly creditable and will be applied to the building fund of the new church. At the meeting last night the Knights of Columbus elegantly entertained their guests and the announcement of the prize winners was the occasion of much interest and many surprises.

### GLOBE BAKING PRODUCTS.

**Now on Sale at Store of Mr. S. W. Sanders—Window Display.**

The attention of Wilmington householders is called to the announcement in another column to the effect that Mr. S. W. Sanders, No. 519 Market street, has put in a full line of Globe Baking Co., products and that they will be handled in future at this popular store. Mr. Sanders today will have a display of these goods in his window and will recommend them to his customers and friends. He calls special attention to the Vienna bread manufactured by the Globe people and the French sticks, with the other lines carried by this up-to-date and enterprising bakery. Attractive advertisements carried daily tell something of the quality of Globe manufactured bread, rolls, specialties, etc., and that the line is to be carried by the "Siwasa" will be welcome news to householders everywhere.

**Fine Outing Yesterday.**

One of the largest and most enjoyable Sunday School outings of the season was that of the Sunday School of Grace Methodist Church yesterday afternoon. The children were the guests of the Tidewater Power Company for a trip to Wrightsville Beach, where they spent several hours very pleasantly at Lumina. The afternoon was most pleasantly spent and the party returned to the city shortly after 7 o'clock.

**Do Ghosts Haunt Swamps?**

No, never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only, 50c at R. R. Bellamy's.

# ..Theatrical..

A week of delightful musical comedy will be that for Academy of Music patrons next week. It will be an attraction that is decidedly bright and breezy just suitable for the hot weather, and the Academy has prepared to give all a warm reception, but a cool time, because the theatre will be found a cool spot and will be well and thoroughly ventilated.

The week of fun and melody is to be furnished by the well known John B. Wills Musical Comedy Company, which returns more sprightly than ever. With many new faces in the chorus, with all new musical numbers, new costumes and new stage settings the attraction will increase its already big number of friends in this city. The opening play will be "The Two Old Cronies," and it has been given a new dress for this season. There will be all new musical numbers, and a number of new novelty scenes will be introduced. Of course, Mr. John B. Wills, who is one of the cleverest of musical comedy comedians, will be found on the firing line, when it comes to shelling out fun, and he has a corps of assistants in the mirth dispensing line that are able seconds. The company has had a most successful season, having played both North and South, and comes with a book full of tributes from the press, including praise notices from Atlanta, Macon, Augusta and Raleigh, the company being in the last mentioned city this week.

A big feature about the attraction next week is that the prices are to be only 10 and 20 cents. This is something unheard of hereabouts and will furnish the largest and longest bunch of amusement for this cost ever given in Wilmington. Seats for Monday night went on sale at Plummer's this morning.

**At the Grand.**

The big day is again at hand and judging from the class of performances the Grand has been giving and the many large pleased houses the "Theatre Beautiful" will do another whopping business today. On today's programme will be found three of the very latest reels of pictures in addition to an excellent orchestra programme and a late song by Mr. Baldwin. The Grand has just had a new supply of electric fans and Grandites now certainly enjoy the Grand as the atmosphere is at least 12 degrees lower than out of doors. Give the Grand a trial and be convinced that it is the coolest spot in town.

**At the Bijou.**

Today is going to be another warm number for high-class amusement, but a cool number for comfort at the Bijou. To present the former the popular Bijou has one of the greatest moving picture bills ever given in Wilmington, or elsewhere, while to make up the latter it has many electric fans to cool the air and make it delightful for those who attend. The programme today will offer a choice and superb collection of motion pictures, and some of the merriest of musical numbers. The pictures will be strong for dramatic fire, but will be just as strong for comedy. In fact, the fun feature of the bill today is a great one, and laughter is one of the greatest tonics of all. Mr. Frank Banks has made a fine selection for this Saturday, and his rich baritone voice will do full justice to the fine ballad.

### SUIT FOR DAMAGES.

**Mr J. C. Vereen Brings An Action Against Mr. J. H. Watters.**

A civil action was instituted in Superior Court yesterday by J. C. Vereen against Joseph H. Watters, the well known wholesale grocer, as the outgrowth of a civil action the latter brought against the former in a magistrate's court some months ago. While the complaint has not yet been filed it is understood that he plaintiff will allege malicious abuse of legal process and damages in the sum of $5,000 will be sought. The plaintiff is represented by Kellum & Loughlin.

**Held Conference Last Night.**

Councilman B. C. Moore, in charge of the Department of Public Safety; Civil Service Commissioners C. F. W. Rehder, the chairman, and S. J. Ellis; Chief of Police John J. Fowler and Chief Chas. Schnibben, of the Fire Department, held an important conference in the office of the Department of Public Safety last night. Matters relating to both the fire and police departments were discussed and a code was adopted. This will be presented to the Council at its meeting Monday afternoon.

New Orleans, May 19.—Edward Whitaker, once honored by New Orleans as chief of the city police department, was convicted late today of criminal abuse of a young girl. A half dozen indictments of a similar nature are pending against Whitaker. Whitaker probably will be sentenced tomorrow.

### HOW TO GET FAT.

**Use Samose, Says Druggist J. Hicks Bunting and Put on Good Flesh.**

Th almost universal interest in physical culture is the best evidence that can be offered as to the need of a simple and scientific method of making thin people fat, increasing strength and restoring health.

Athletics, when carried to an extreme, often result in straining the vital organs. How much better it would be for the average person to regain health, strength and flesh by using Samose. This flesh forming food is assimilated as soon as it enters the stomach; it helps the organs to assimilate the food and extract the flesh forming elements; it builds up the muscles and rounds out the limbs into shapely plumpness.

Samose has been so successful in making thin people fat and restoring the weak and run down to strength and health that J. Hicks Bunting, the popular druggist, sells it under his personal guarantee to refund the money if it does not benefit.

## UNSETTLED DAY FOR COTTON

**Only Near Months Showed Any Decided Strength—Old Crop Positions Again Made New Records—Spot Closed Higher.**

New York, May 19.—Old crop positions again made new high records during the day's trading in the cotton market, but only the near months showed any strength of consequence. August and later deliveries being unsettled and easier under realizing, and more favorable weather report. The close was steady, at a net advance of 7 points to a decline of 14 points.

The market opened barely steady at a decline of 4@9 points under scattering realizing and local selling, which was inspired by the appearance of rains in the Eastern belt and expectations of more or less general showers and thunder storms tonight or tomorrow, which were thought likely to relieve the droughty conditions recently reported. Trade interests were buyers of both old and new crop positions, around the initial figures, however, early indications pointed to bullish week-end figures, and when the early sellers found their offerings were being absorbed without making much further impression on prices a covering movement started which carried May and July into new high ground, and the new crop back to about the closing figures of last night. There was a little more cotton for sale after May reached 16 cents and July 16.13, owing to reports of a less active spot demand and when into-sight figures were published showing rather a larger movement than expected, the market turned easier in the late trading. May and July closed a shade over the closing figures of last night, but August was weak, under liquidation and selling by people who expect that the bull campaign will be wound up before the end of July, and at one time showed a net loss of 15 points, while the new crop sold 9 to 12 points net lower and closed within a point or so of the bottom.

The into sight figures ran about 5,000 bales over estimates, owing to an outside clearance, and the decrease in the visible supply of American cotton for the week was correspondingly smaller, but reduced the total to about 1,000 bales, under the corresponding date last year. A private acreage report issued this morning estimated an increase of about 6½ per cent. Receipts today, 16,289 bales, against 7,724 last week, and 13,989 last year. For the week, 55,000 bales, against 60,474 last week, and 74,768 last year, oday's receipts at New York, 5,253 bales, against 5,398 last year, and at Houston, 632, against 1,236 last year.

Cotton spot closed quiet, 5 points higher. Middling uplandes, 16.15; do. gulf, 16.40; sales, 4,800 bales.

Futures opened barely steady and closed steady.

### THE GRAIN MARKET.

Chicago, May 19.—Promises of cooler weather and showers turned wheat prices into a downward course today. A prediction that shipments from Russia would be heavy formed another important influence in bear side of market. As a result, closing figures were ¾c. lower all around than 24 hours before. The end of the day left every other leading staple at a decline, corn off ⅛ to ⅜, oats a shade to ⅛@⅜, and provisions on a slide from last night's level to 30c. beneath.

## REACTION IN STOCK MARKET

**Trading Fell Off Largely Yesterday—Buying Movement Has Spent Itself — Indications of Better Trade Conditions.**

New York, May 19.—Trading in stocks fell off largely today, after three days of heavy dealings, and the enthusiastic buying movement appeared to have spent itself, for the time, at least. The reactionary tendency which appeared in the latter part of yesterday's session was extended today, and the market was uncertain, with a heavy undertone. Closing prices for stocks showed small losses for the market leaders.

Traders on the long side made every effort to sustain prices at the high point reached by the week's advance, and gave support to the market when it became heavy. Stocks sagged back, however, whenever buying ceased. The weakness was attributable largely to the lessened demand from the short interest, which had covered extensively earlier in the week, and to the fact that the higher prices had the effect of diminishing the outside demand. The most extensive movements of the day among the active stocks were in Reading and Amalgamated Copper, both of which rose a point only to fall back again. Amalgamated Copper attracted a large following, by reason of the continued reports of a substantial improvement in the copper metal trade, and the belief that there still existed a large short interest in this stock, which was attempting to cover. The fertilizer stocks were exceptionally heavy, Virginia-Carolina Chemical, American Agricultural Chemical, and American Cotton Oil all falling back, apparently because of the belief that the terms of the settlement of the potash dispute with German interests were not as favorable as hoped for. An unsettling factor was the beginning of a government suit under the Sherman law against various lumber companies which offset the effects of anticipated benefits from the Standard Oil decision. News of the government's action was used effectively as a bear weapon in the final dealings.

Indications of better trade conditions continued to be received, although they are not sufficiently general to justify definite expectations of widespread betterment.

Over-year money showed a further hardening tendency today. The recent large bond market and that of the last few days in stocks created a demand which is the primary reason advanced for the stiffer rates.

The bond market was firm early in the day, but later became irregular. Total sales, par value, $3,083,000. United States 2s, coupon, and 4s, coupon, declined ½ and the 4s, registered, ¼ on call. Total sales, for the day, 517,000 shares.

**A Bad Back is Always Worse in the Morning. Wilmington People Are Finding Relief.**

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills act on sick kidneys—make you feel better, work better, rest better and sleep better.

W. L. Benson, 620 S. Second St., Wilmington, N. C., says: "I cheerfully re-endorse Doan's Kidney Pills and confirm the statement I gave in their praise in February, 1908.——My back ached nearly all the time and I could not straighten after stooping or lifting without a sharp pain in my loins. Mornings when I got up, I was very lame and sore and I noticed that the kidney secretions contained sediment. Soon after I used Doan's Kidney Pills, procured at Bellamy's Drug Store, I felt better in every way and it was not long before I was enjoying the best of health. My advice to anyone suffering from kidney complaint is to try Doan's Kidney Pills."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## FIGHT HAS BEGUN ON LUMBER TRUST

(Continued from Page One.)

tective Association.

The Retail Lumber Mens' Association, of Philadelphia.

The Lumber Exchange of the District of Columbia.

The government's bill alleges, among other things, that, although the National Wholesale Lumber Dealers' Association is not named as a defendant, by agreements with it, the Eastern States Association has organized and circulars blacklists which have affected the lumber trade in New York, North Carolina, Kentucky, Pennsylvania, Maryland, Michigan, West Virginia, Massachusetts, Tennessee, South Carolina, Virginia, New Jersey, Illinois, Ohio, Wisconsin, Louisiana, Connecticut, Indiana, Florida, Georgia, Missouri Alabama Rhode Island, California, Mississippi, the District of Columbia, the Canadian Provinces of Quebec, Ontario, Nova Scotia and British Columbia.

That as a result of the alleged blacklists wholesalers have been directed not to sell lumber to retail dealers, who have dealt with consumers in wholesale quantities and that in the case of wholesalers who have dealt with consumers in retail quantities, the organized retailers were directed not to buy lumber from them.

That retailers who have sold wholesale lots or have competed outside their alloted territory have been posted to the traders as "poachers" or as "scalpers," and in some instances have been heavily fined or expelled.

"The result of this illegal operation," says the government's bill, "has been to close the door of the wholesale dealer and manufacturer to the consumer in all parts of the United States and to deprive the wholesaler of the trade of a consumer in a territory covered by a retailer except through the medium of the retail yard."

**First of Series of Suits.**

Washington, May 19.—At the Department of Justice it was stated that the suit filed in New York against the so-called "lumber trust" probably would be the first of a series to be instituted wherever similar violations of law are believed to be practiced.

Officials of the Department made it plain that there would be no delay in pushing the cases, and declared that the character of the operations of the defendants and the nature of the proof produced would determine whether criminal or civil proceedings would be brought in the other cases under investigation.

**As Viewed in Chicago.**

Chicago, May 19.—The government's suit, filed in New York today against the "lumber trust," reveals the extent to which the Department of Justice has investigated the marketing methods of the so called trust in the Middle West, during its search for violations of the anti-trust law.

It became known today that for several months secret service agents from Washington have been working in nearly every State, west of the Mississippi. Illinois, Michigan and the Eastern territory covered by the New York suit, taking statements of dealers and examining books and records of the associations.

Neither the government officials nor the agents on this particular work will admit that the investigaions are finished or that they have any idea of what decision the Department of Justice may make regarding prosecutions. The question is the same as in the New York suit, involving the right of the consumer to deal with whom he chooses.

A particularly bitter war has been waged in the Middle West by retailers associations upon manufacturers and wholsalers who have been selling direct to the consumer through the mail order houses, contracting builders and farmers' co-operative unions.

Managers of the retail associations maintain that all their operations have been directed by the legal opinions of skilled lawyers. They are prepared to submit a strong defense to the government's attack.

### WILL THEY RESIGN?

**Not Much Likelihood According to Report in Raleigh.**

(Special Star Correspondence.)

Raleigh, N. C., May 10.—Those in touch with the political situation here so far as it bears on the three candidates now in the field for the United States Senate, Senator Simmons, Governor Kitchin and Chief Justice Clark, haven't the least sort of expectation that there will be any resignations of the offices the candidates now hold. Senator Simmons could not be expected to resign. Chief Justice Clark is quoted as stipulating that he will resign if Governor Kitchin and Senator Simmons will both resign. However, there comes an authoritative report that Governor Kitchin declares he is ready to resign the governorship any day that the chief justice will resign his place on the bench and both get in the contest, untrammelled by present office. However, there is conceded to not be the least bit of probability of any vacancy in either the executive office or the chief justiceship from this cause.

### FIRST WIFE FROM COLUMBIA.

**Newspaper Man, Accused of Bigamy, Puts Burden on Prosecution.**

Yazoo City, Miss., May 19. — A unique situation developed yesterday in the trial of J. G. Bennett, a newspaper man charged with bigamy, when the court ruled that if Bennett had never been divorced from his first wife she could not testify.

The defendant added to the complications by claiming that his arrest was a case of mistaken identity.

The prosecution alleged that he first married Miss Ellen Gilman, of Columbia, S. C., whereupon Bennett declared he would force the State to prove that he had never been divorced from her.

Bennett is from Jackson, Miss., and married a young woman of this city several months ago.

## ASSEMBLY HEARS FEATURE ADDRESS

(Continued from Page One.)

In their common speech they clothe but two objects with the attribute of omnipotence, Almighty God and the Almighty dollar. * * * Shall our Southern people, by nature and tradition ardent, generous, romantic, fall a prey to this creeping spiritual paralysis? I reply, this result is certain, unless the Church of God rises with a new consecration to meet this new condition."

He declared that in order to fulfill its mission the Church must have a message and that that message must put the supreme accent where the New Testament puts it, not on Christ as example and teacher, but on Christ as the Divine and Almighty Savior of men, dying to atone for their sins, and rising again that they might rise with him into a new life of love and fellowship and likeness to himself. "No message less great than this can meet the tremendous need of this age or any age," he said.

Another essential, said the speaker, was the right movement, following the forward march of God's guiding spirit, which was leading today toward a new and larger conception of Christian goodness and toward Christian unity.

"Unity is a growth, not a manufactured product," he declared. "To force a union is to create fresh divisions. The unity of the Spirit is the bond of peace. For such a unity among all those who accept Christ as God and Savior, and for some form in which it may be made visible to the world, there is a yearning today in Christian hearts the world over. * * * If the demons of suspicion, bigotry, exclusiveness seek to enter our hearts, we must cast them out. More and more we must cultivate the spirit of sympathy and loving co-operation toward all those who call upon the name of the Lord Jesus, welcoming every wise movement that looks to a completer manifestation of our essential oneness in Him."

The Rev. Mr. Smith said that the reason Christians the world over were coming nearer together was because the Spirit of God was drawing them closer to the common center. "If our Church in this new age is to follow the manifest leadership of the Spirit, we must leave some things behind us, the splitting of hairs, the threshing of old straw, the worship of the past, the magnifying of non-essentials, and we must concentrate our minds, and wills and hearts on Christ, as we have never done before. Only from Him can we get the courage and the power for the mighty tasks that lie before us."

### WAKE FOREST FINALS.

**Seventy-Seventh Annual Commencement at Baptist College.**

Wake Forest, N. C., May 19.—The 77th session of Wake Forest College came to a close this morning when degrees were conferred upon 61 applicants. Forty-six of this number received the Batchelor of Arts degree, three the Masters of Arts degree, five the Batchelor of Science, and seven were awarded Batchelor of Laws. The commencement exercises have been well attended, due in part to the reduced rates on all railroads and part to the excellent commencement programme. An impressive feature of the programme has been the wearing of the caps and gowns by the graduating class. This custom has been in vogue at this place for a long time and is always a delightful feature of the commencement. The commencement orations by the six representatives of the senior class this morning were well delivered and well received and each speaker showed himself a speaker of ability. Those speaking and their subjects were: W. G. Moore, Caldwell county, N. C., "Man's Redemption of Man"; C. T. Murchison, Sparta, Ga., "The South Regaining National Leadership"; Music; Julius C. Smith, Guilford county, N. C., "The One Hope for Peace"; J. Powell Tucker, Buncombe county, N. C., "America, the Arbiter of Modern Progress"; Music; John R. Carroll, Pitt county, N. C., "Allies of Progress"; J. Ben Eller, Buncombe county, N. C., "Back to the People."

### DR. SHERMAN SENTENCED.

**Slayer of Brother-in-Law At Chattanooga Gets 10 Years.**

Chattanooga, Tenn., May 19.—"We, the jury, find the defendant guilty of murder in the second degree and fix his punishment at ten years in the State penitentiary," was the verdict returned by the jury in the case against Dr. John Sherman, charged with the murder of his brother-in-law, Thomas B. Norman, in East Chattanooga, on February 5th, in the criminal court this morning.

The defendant sat between his leading attorney, Judge Lewis Shepherd, and his uncle, A. B. Sherman, and so far as could be determined from appearances, received the verdict with the utmost stoicism. When he first entered the court room, a few minutes before the jury brought in its report, his face wore a worried and harrassed look, but when the jury marched in, he braced up preceptibly and displayed a return of the nerve he has shown throughout every moment of the long trial.

The jury was then discharged after a word of thanks from Judge MacReynolds. Judge Lewis Shephard immediately entered a motion for a new trial, and Judge McReynolds advised him to draw his order to that effect. Judge McReynolds fixed the bond of Sherman at $10,000.

### AYCOCK TO ENTER.

**Believed in Raleigh He Will Enter Senatorial Race.**

(Special Star Telegram.)

Raleigh, N. C., May 19.—Ex-Governor Aycock has decided to enter the race for the United States Senate. This is the confident opinion here. Inquiry at the Aycock home tonight elicited from a member of the family that a definite statement as to the candidacy of Mr. Aycock will be out for Sunday's newspapers. He is in Washington, N. C., tonight, and will return tomorrow.

### ANOTHER RAILROAD WAR.

**Coast Line and Carolina Western in Controversy at Darlington.**

Darlington, S. C., May 19.—For permission to cross its tracks, the Atlantic Coast Line Railroad Company, it is said, has demanded of the South Carolina Western Railroad Company $10,000 and a release from or guarantee against all damage that may be incurred by accidents by either road in the future at the crossing of the Atlantic Coast Line track in this town.

It is said that the South Carolina Western has declined to comply with the terms and announces its intention of crossing without permission. Negotiations are still pending, however.

Since Saturday night the Atlantic Coast Line has maintained a guard of eight or ten men on the spot, and more within calling distance, determined that the crossing shall not be effected without compliance with its terms. The Coast Line tracks are blocked by "shanties", flats, and a coach standing on the sidetracks on both sides of the main line. An engine is kept under steam all night, too.

Heretofore the South Carolina Western, it is said, delayed crossing because their interlocking switch was not ready for installation. It was rumored today that it was the railroad's intention to cross regardless of any obstructions that may be made, consequently, there is considerable tension among those who have been looking on as to what the outcome may be.

### COTTON SUPPLY VERY LOW.

**Report Yesterday Places It Below Last Year's Figures.**

New Orleans, May 19.—Today, for the first time in this calendar year, and for the first time since the movement of the last crop became heavy, the visible supply of American cotton went below last year's low record, the figures being 2,045,991, against 2,054,641 bales a year ago.

The shrinkage to below the semi-famine levels of the supply a year ago has been predicted many times by bull leaders like Frank B. Hayne and W. P. Brown but was not thought possible by leaders on the short side of the cotton market who were impressed with the general curtailment movement among the mills of the country.

It was pointed out that while the season started off with a smaller visible supply than last season, the larger crop raised this season compared with two seasons ago, soon piled up a comparatively large visible, and after a while made it materially larger than the visible comparisons of a year ago. The bulls claim that the visible supply on the first of next September will be the smallest since the Civil War.

### DIED IN VANCE.

**Well Known and Popular Citizen of State Passes Away.**

Charlotte, N. C., May 19.—Ex-Mayor T. W. Hawkins is expected to return tomorrow from Vance county where he was called by the death of his brother, Mr. Joseph Hawkins. Mr. Hawkins died a week ago today. His brother here knew nothing of his illness until he received a telegram stating that he was critically ill. In less than two hours a message followed announcing his death. Deceased was the second to the oldest child of his parents, and the oldest son. He was esteemed by all who knew him as a man of mind, integrity and honor.

Mr. Hawkins, who left at once to attend the funeral, was accompanied by his sister, Miss Annie Hawkins.

### PASSENGER RATES.

**Interstate Commerce Commission Announces Order.**

Washington, May 19.—Railways operating in Central Passenger Association territory—including the States of Ohio, Indiana, Illinois and Michigan—are permitted by an order issued today by the interstate commerce commission to exact higher passenger fares for interstate than for intra-State business, where State Legislature or State commissions have established a two cent a mile rate.

Washington. D. C., May 19. — Dr. John A. Ferrell, the North Carolina secretary of the Rockefeller Foundation, whose work for the eradication of the hookworm disease is among the foremost in the Southern States, was here today in consultation with his superior officers. He was a guest of his uncle, Dr. Walter C. Murphy.

### RAIDS ON GAMBLING HOUSES.

**New York Police Confiscate Paraphernalia of Places.**

New York, May 19.—Eleven men under arrest today and a wagonload of card tables, dice boxes and other paraphernalia are the fruits of a series of raids on alleged gambling houses.

The raids were the first since Deputy Police Commissioner Dougherty assumed charge of the detective bureau 18 days ago.

Arrests were made by the men under such warrant names as "John Doorkeeper," "John Dealer," and "John Proprietor."

*ICE! ICE!! ICE!!!*
-:-YES-:-
*ICE! ICE!! and ICE!!!*

One might almost be led to believe that this community had never seen Pure Ice until this good year 1911.

A great man once said "there is nothing new under the sun" and this is so to a great extent when it comes to the manufacture of ice.

Now, as a matter of fact, The Independent Ice Company has been for ten years and is still making as pure, as clean, as healthful to use ice as can be found in all North Carolina. We defy anyone to prove to the contrary. Our prices are as low as the lowest. We give full guaranteed weight. Our service is the best Wilmington ever had. We have a polite, accommodating corps of officials who will thank any one to report any act of neglect or discourtesy on the part of our wagon drivers or helpers.

Do the right thing for yourselves and for ourselves by taking ice from the old reliable.

TURPOILINE
CHEAPER THAN TURPENTINE

It is an odorless mineral product, which possesses great solvent power for paints and varnishes, has the requisite high flash for working and the clean evaporation which leaves the coating in perfect condition.

TURPOILINE makes a free flowing varnish, free from bloom. It flat colors better than turpentine.

TURPOILINE is thorough uniform; you can be assured of receiving the same product all the time.

TURPOILINE costs less and works well.

TURPOLINE is the most satisfactory product on the market for the paint and varnish man.
